CONFERENCE & EXPO

CREATING SUSTAINABLE CAMPUSES & COMMUNITIES

Gateway Clipper - VisitPittsburgh

OCT 9-12, 2011 PITTSBURGH, PENNSYLVANIA

PROGRAM

WELCOME to the 2011 AASHE CONFERENCE & EXPO

Dear Conference Participant,

Whether you have attended every AASHE conference or this is your first, we think you will find this event stimulating, educational, and perhaps even exhilarating. You will find yourself among a huge group of people who are dedicated to making our campuses and communities more sustainable. Please take the opportunity to learn and share, here and after you return home!

Don't miss a single session! Our keynote speakers have been carefully selected to complement each other and to reinforce our theme of "Creating Sustainable Campuses and Communities." Bill McKibben, Student Summit speaker, is author of over a dozen books on the environment, most recently, *Eaarth*. The conference is kicked off Sunday night with keynote speaker Majora Carter, MacArthur Genius Fellow. Chancellor of University of California, Riverside, Dr. Tim White is Monday's keynote. He is a leader of leaders in sustainability on university campuses. On Tuesday, our keynote speaker is ecologist, author, and cancer survivor, Dr. Sandra Steingraber.

Tuesday morning, you will have to make a difficult choice between plenary speakers from Global University Network For Innovation (GUNI), David Orr, Leith Sharp and Mitchell Thomashow, all preeminent leaders in sustainability on our campuses. In addition to the keynote and plenary addresses, over 700 people will deliver over 400 papers, posters, field reports and workshops.

We are pleased to be located in the David L. Lawrence Convention Center, the largest LEED Gold convention center in existence. Congratulations to the City of Pittsburgh for their innovation and creativity in making this a reality! The exhibit hall features a host of companies and organizations with sustainable products and services, and provides a unique opportunity for conference participants to network and exchange ideas. The exhibitors provide very significant financial support for this meeting.

We also offer thanks to sponsors and to host colleges and universities for all their financial and in-kind donations. The conference couldn't have happened without our hundreds of volunteers and the AASHE staff, particularly to conference manager, Danielle Faris, and Events Assistant Deirdre Moynihan.

We know that travel budgets are tight and you've chosen carefully in selecting to spend your dollars to attend AASHE 2011. We are certain your investment is worth it. Your feedback will be invaluable in planning for AASHE 2012 in Los Angeles. Welcome, and thank you for attending!

Thank you!

COMPOST!

The David L. Lawrence Convention Center supports composting on site, including food packaging materials! Carefully chosen for composting: box lunch and utensils, hydration station cups, coffee cups, and napkins. Drop your compostables off at our various composting stations Sponsored by the Glad® One Bag campaign, both in the AASHE EXPO and by the Ballroom!

The new Glad® One Bag campaign is an effort to support the brand's new Stronger Stance Against Waste DNA. The idea is that we can all take small steps to waste less, one bag at a time. The campaign that officially launches later this fall will encourage and facilitate events, venues and consumers to host One Bag events, where the end result is only one bag of waste to landfill, with the remainder being diverted to compost and recycling. Additionally, the team will help college football stadiums and consumers make smarter planning decisions and aid diversion techniques to host a variety of sustainable One Bag events.

STAY CONNECTED *at* AASHE 2011!

Social media will be playing an important role in keeping you connected and up to date during and after the AASHE 2011 conference. We hope that through participation in the below social media outlets we can engage in a two-way exchange of ideas and information with the campus sustainability community.

A FEW WAYS TO STAY CONNECTED:

AASHE BLOG www.aashe.org/blog

Features live updates from the conference, including coverage of keynote speakers, transcriptions of conference sessions, photos and much more.

TWITTER at [AASHENews](#) Conference Hashtag [#AASHE2011](#)

Up to date micro-blogging from the conference. Participate in the discussion by searching and using #AASHE2011.

FACEBOOK: [AASHEorg](#)

Open to all interested in campus sustainability. Let folks know what you have liked and learned during your time in Pittsburgh.

FLICKR [AASHEIT](#)

AASHE's online repository of photos from the conference and campuses. Upload and share your photos!

YOUTUBE [AASHEOrg](#)

Recording of keynote videos and other presentations.

LINKEDIN Group: [AASHE](#)

An online networking platform for all involved in campus sustainability to discuss common issues and identify possible collaborators.

Special opportunities including drawings will only be announced via these AASHE social media avenues so get connected now.

AASHE2011 HAS GONE MOBILE!

We strongly encourage you to download our mobile guide to enhance your experience at AASHE2011. You'll be able to plan your day with a personalized schedule and browse exhibitors, maps and general show info. The app is compatible with iPhones, iPads, iPod Touches and Android devices.

To get the guide, choose one of the methods below:

1. Download 'Guidebook' from the Apple App Store or the Android Marketplace
2. Visit <http://guidebookapp.com/getit> from your phone's browser
3. Scan the following image with your mobile phone (QR-Code reader required, e.g. 'Red Laser', 'Barcode Scanner')

AASHE Staff will be available to help get you connected at our booth in the expo hall, come by and see us!

WELCOME *from* OUR HOST CAMPUS SPONSORS!

JOHN M. ANDERSON, PHD PRESIDENT, ALFRED STATE COLLEGE

"This conference is an important vehicle for sharing our successes and best practices to better allow us to train our future researchers and practitioners in the art and science of sustainability."

It gives me great pleasure to welcome you to the 2011 Association for the Advancement of Sustainability in Higher Education Conference: Creating Sustainable Campuses and Communities.

Alfred State College is proud to be a host institution this year and we look forward to meeting and collaborating with our colleagues around the country who are as committed to sustainability—in all its guises—as we are.

This conference is an important vehicle for sharing our successes and best practices to better allow us to train our future researchers and practitioners in the art and science of sustainability.

Alfred State College is proud of the work it's been doing in sustainability: from our establishment of an Institute for Sustainability to our model green home on our Wellsville campus to our faculty and students' participation in installing solar energy panels at the national arboretum in Washington, DC, to our student-retooled electric car (which you will see at the conference).

Alfred State continues to expand its opportunities for students to immerse themselves in this important

initiative. We at the college are committed to continuing to incorporate alternative energy technology, not only into our classes, but also into the life of the college in an effort to decrease our carbon footprint.

Again, welcome. I anticipate a successful and fruitful experience for all of us during this important event.

John M. Anderson, PhD
President,
Alfred State College

Environment at Carnegie Mellon

"Carnegie Mellon is committed to making a difference in the world by applying its interdisciplinary problem-solving skills to important real problems. In this regard, environmental problems rise to the first rank. Carnegie Mellon's commitment to making contributions to environmental improvement is comprehensive, embracing our environmental education and research, as well as the university's own environmental practices." - President Jared Cohon

The Steinbrenner Institute

- Seeks to change the way the world thinks and acts about the environment
- Facilitates connections and coordinates new research initiatives
- Promotes and helps build the strengths of our environmental research centers
- Advances emerging and interdisciplinary interests in environmental education and research
- For more information:
www.cmu.edu/steinbrenner

Green Practices

- The Green Practices Committee, which is comprised of staff, faculty and students, establishes priorities, goals, and mechanisms for implementing environmentally progressive practices across campus.
- Carnegie Mellon is ranked third on the EPA top 20 list of college and university green power purchasers.
- Carnegie Mellon built the first Silver LEED rated Residence Hall in the United States in 2003 and has over 500,000 sq ft of LEED Certified building space. Green roofs, advanced energy systems, and advanced water management systems are included in our LEED building systems.
- For more information:

Carnegie Mellon University

Environmental Education

- Carnegie Mellon offers a diverse curriculum in environment and sustainability throughout all seven colleges at the University.
- The University supports hands on environmental education at the undergraduate and graduate level by advocating the use of the Carnegie Mellon campus as living, learning laboratory for all community members.
- The annual "Environment Today" course pulls together faculty from Carnegie Mellon, local universities, and members of the corporate, non-profit, and foundation community for a weekend immersion course with a sustainability and environment focus.

When it comes to being green, Frostburg State University is walking the walk...

... but leaving a smaller (carbon) footprint.

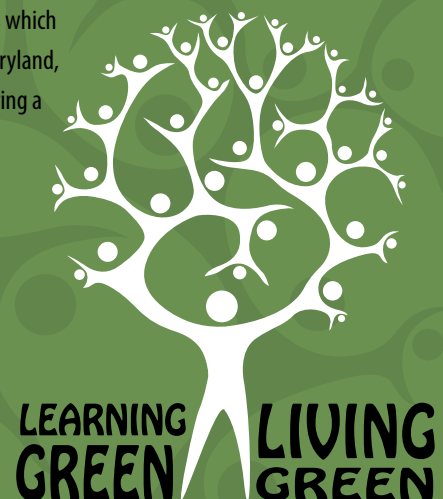

FSU recognizes that being green is more than just taking a class or recycling a newspaper.

That's the philosophy behind Frostburg's sustainability initiative, **Learning Green, Living Green**, which provides guidance and leadership to the University community. Set in the mountains of Western Maryland, FSU provides the perfect setting for innovative research that furthers environmental education, offering a learning environment in which renewable energy plays a signature role:

- Multi-disciplinary sustainability minor
- New off-grid sustainable energy research facility
- Charter member of the American University and College Presidents Climate Commitment
- Energy Star purchasing policy and vehicle fleet transitioning to hybrid
- Named in *The Princeton Review's Guide to 286 Green Colleges*
- Featured in the ARC's *Green Schools and Sustainability in Appalachia: Case Studies in Rural Practice*

WELCOME *from* OUR HOST CAMPUS SPONSORS!

ESTHER L. BARAZZONE, PH.D.
PRESIDENT, CHATHAM UNIVERSITY

"We are charting a new frontier in sustainability with our Eden Hall Campus, the first sustainable campus in the world built from the ground up."

On behalf of Chatham University, welcome to Pittsburgh! We are proud to be a host institution, and I hope you will take the opportunity to visit our campuses and experience sustainability-in-action.

As the alma mater of Rachel Carson '29, Chatham holds a longstanding focus on the environment. We are charting a new frontier in sustainability with our Eden Hall Campus, the first sustainable campus in the world built from the ground up. A 388-acre former farm north of our historic Shadyside Campus, Eden Hall Campus will transform how we interact with the environments we inhabit.

Our master plan, developed by award-winning architects BNIM and Andropogon, establishes the potential for this living laboratory with an eventual student population of 1,500. The Seattle-based architectural firm and AASHE member, Mithūn, is now designing Phase 1, which will feature innovative climate-positive buildings and landscape design.

Eden Hall Campus will house our School of Sustainability and the Environment (SSE), established in 2009 and led by Dean David M. Hassenzahl, Ph.D. Our Master of Arts in Food Studies has now admitted two cohorts, and in 2012 we will offer a Master of Sustainability and online Certificate in Sustainable Management. In the future, SSE will provide degrees through the doctoral level, along with life-long learning and outreach opportunities.

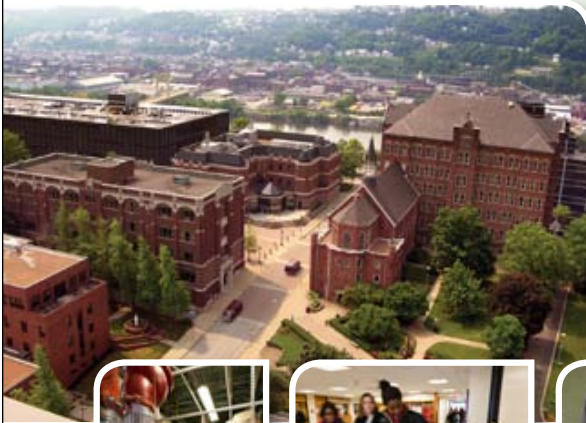

As a conference attendee, you have the opportunity to see Eden Hall Campus at its conception. I hope you will visit again in a few years to experience the fruits of our efforts.

I look forward to meeting you at the conference.

WELCOME *from* OUR HOST CAMPUS SPONSORS!

MARK A. NORDENBERG CHANCELLOR, UNIVERSITY OF PITTSBURGH

"... [Pittsburgh] and the University of Pittsburgh are among the leaders in building green buildings and in creating sustainable communities. Pitt has long been recognized as a leader in sustainability efforts..."

As Chancellor of the University of Pittsburgh, I would like to welcome you to our home — the City of Pittsburgh — and to the 2011 Association for the Advancement of Sustainability in Higher Education Conference. We are honored that our city was selected to host this very important meeting.

Over the past three decades, the City of Pittsburgh has transformed itself from a center of heavy industry to a center of research, health care and education. No longer is the air cloudy with the smog that led many to call us the "Smoky City." Instead, the City and the University of Pittsburgh are among the leaders in building green buildings and in creating sustainable communities.

Pitt has long been recognized as a leader in sustainability efforts — from the installation of the first campus-wide energy management system in 1975; to the 1990 signing of the Talloires Declaration; to more recent construction projects, such as the University's new steam generation plant, designed to significantly reduce greenhouse gas emissions, and the McGowan Institute for Regenerative Medicine, which received a Leadership in Energy and Environmental Design Gold certification from the U.S. Green Building Council.

Few would disagree, though, that the signature initiative in our sustainability efforts is Pitt's Mascaro Center for Sustainable Innovation in our Swanson School of

Engineering. The Center's research includes projects on greening the built environment, more sustainable use of water, and the design of distributed power systems. Moreover, the Center is now housed in a facility that is a product of the University's embrace of efficient and sustainable construction.

I hope that your schedule will allow time for you to our campus to how Pitt has been a leader in not only transforming our campus, but also the city which we call home.

Again, it is our privilege to welcome you to Pittsburgh. Our best wishes to you for a very successful meeting.

Sincerely,
Mark A. Nordenberg

PRESIDENT, THE PENNSYLVANIA STATE UNIVERSITY

“Conferences such as this bring us closer to the goal of enhanced sustainability. .. I encourage you to continue your excellent work, not only for the health of our planet, but for the health of our economy.”

On behalf of Penn State, I want to welcome you to the 2011 Association for the Advancement of Sustainability in Higher Education Conference. We are delighted to participate as a host institution for such an active and engaged group. I am proud of the fact that as a result of the commitment of Penn State faculty, students and staff, Penn State has become a national leader in sustainability.

Penn State leads the Big Ten in the amount of green power it uses, according to the Environmental Protection Agency, and we have over 500 faculty members deeply engaged in issues related to energy and the environment. Our efforts to save energy, reduce waste, create “green” advocates, and advance sustainability across the university have had a profound impact on our campuses and have served as models for other universities.

But we still have a long way to go, and we need your ideas to create a framework for focusing and guiding our efforts for many years to come.

Conferences such as this bring us closer to the goal of enhanced sustainability. As you know, green jobs and

renewable energy sources have the potential to create jobs and economic security for our country, so I encourage you to continue your excellent work, not only for the health of our planet, but for the health of our economy.

We appreciate your efforts and look forward to hearing your ideas for a “greener” future.

Sincerely,
Graham B. Spanier

AASHE RESOURCE CENTER

The AASHE online Resource Center, www.aashe.org/resources/ is a rich and comprehensive source of information on campus sustainability. The Resource Center provides administrators, faculty, operations staff, students, and other campus stakeholders the necessary tools, information and guidance they need to lead the sustainability transformation. AASHE continues to update and improve upon existing resources, while developing new resources to help empower the campus sustainability community. The Resource Center continues to be one of the top reasons AASHE members renew their membership.

Over the past year, the Resource Center has continued to grow and advance towards AASHE's goal of making resources as helpful and easy to use as possible. Among the several new resources are the Green Office Programs, E-Waste Programs, Policies, and Events lists, and Campus Telecommuting Policies. In addition, the AASHE Discussion Forum which serves as a space for dialogue among campus sustainability leaders has been transformed to be more user-friendly. The newest forum is the "General Campus

Sustainability and AASHE-related Discussions" forum, to encourage dialogue on the broader, more philosophical questions related to campus sustainability initiatives.

AASHE's resource center also hosts the Campus Sustainability Perspectives Blog which provides commentary, insights and references to cutting-edge information from AASHE Staff and others in the campus sustainability movement. Numerous interviews and guest author articles are available at www.aashe.org/blog.

Come talk with us at the AASHE exhibit booth during EXPO hours. We strive to make the Resource Center as useful and valuable to you as possible. As always, we welcome additions, updates and suggestions for improving the Resource Center — just email us at resources@ashe.org.

Stop by the AASHE exhibit and learn how you can enter to win an AASHE 2012 Conference pass!

AASHE PUBLICATIONS

The AASHE Bulletin is a free weekly e-newsletter that delivers the latest campus sustainability news, resources, opportunities, job postings and events from the U.S. and Canada. If you are wondering how other campuses are incorporating sustainability into their operations, curriculum and planning, this newsletter is a great way to find out, as well learn about new resources and opportunities.

Our nearly 11,000 subscribers include campus administrators, faculty, staff, students and professionals interested in campus sustainability. Those subscribed to the Bulletin will automatically receive AASHE Bulletin: Global Edition, a twice-yearly e-newsletter that covers sustainability stories from higher education institutions located outside the U.S. or Canada.

AASHE sends out a monthly AASHE Announcements newsletter to keep members up to date about new AASHE programs, events, special resources or opportunities, and important organizational news. The AASHE Events newsletter is a monthly update of AASHE happenings including curriculum workshops, conferences, webinars and more.

The STARS® Update is a regular e-newsletter available to anyone interested in AASHE's Sustainability Tracking, Assessment & Rating System. The STARS Annual Review highlights best practices and data submitted by participating institutions."

AASHE publishes surveys, how-to guides and annual reviews of campus sustainability in a downloadable format. Most recently, AASHE has published its "2010 Campus Sustainability Review," the first publication to be available as an e-book. Other recent publications include the "2010 Higher Education Sustainability Staffing Survey" and "Sustainability Curriculum in Higher Education: A Call to Action."

Come talk with us! We want know what you think about AASHE publications, what suggestions you have to make them better and what new publications you would like to see from us. The AASHE Resource Center staff are available at the AASHE exhibit booth during EXPO hours. Also, we always welcome additions, updates and suggestions for improving the Resource Center by emailing resources@ashe.org.

AASHE CURRICULUM UPDATE

AASHE strives to provide the latest information on sustainability education programs and courses, learning experiences outside the formal curriculum and research related to or focused on advancing the sustainability transformation. Higher Education institutions are uniquely positioned to train and educate future leaders, scholars, workers and professionals to address sustainability challenges.

A new Faculty Commons is in the making. Cindy Thomashow, core faculty at Antioch University New England for 27 years, recently joined AASHE as Education Manager. The new Faculty Commons site will empower faculty by offering curated curriculum and courses, professional development, research, publications, discussion forums, case studies that provide information and resources.

By the end of 2012, a new Faculty Community site will provide unique interactive opportunities for faculty to engage in sustainability-related learning among their colleagues and other experts. This site will facilitate dynamic discussions, provide access to expertise, and make recommendations for the advancement of sustainability in higher education.

AASHE offers Sustainability Across the Curriculum Leadership Workshops designed to prepare faculty leaders to advance sustainability through integration of curriculum across disciplines. AASHE will offer an additional set of workshops that directly address faculty concerns, challenges and interests in 2012.

THANK YOU AASHE MEMBERS!

We appreciate the work you are doing to create a sustainable world. Your energy drives us to keep pushing the envelope and continue providing superb thought leadership at convenings like this conference. Collectively you comprise an engaged, proactive community that is making a significant difference in higher education and beyond. Congratulations!

At present AASHE members include nearly 880 campus members and 270 associate member businesses, nonprofits, government agencies, K-12 schools, and system offices. We keep expanding as momentum for sustainability continues to build throughout society.

Special thanks to the 13 institutional members who are hosting the conference this year, and to the many business associate members who are sponsoring. Please be sure to visit their booths in the EXPO.

Dues from membership account for roughly 70% of AASHE's annual budget and support core operations, including our online resource center. Revenue from dues enables us to offer the quality services and programs such as STARS® that you rely on to help advance your work.

If your institution or organization is not a member but is considering joining, please be sure to attend the Non-member Open House meeting at lunchtime on Monday.

One of the best features of AASHE membership is that it covers every individual at your organization – any individual can take advantage of our member-only benefits, including discounts on events such as this conference (\$125 off registration).

We value your ideas and suggestions, and invite you to stop by the AASHE booth to share your latest thoughts and learn more about your membership benefits and services.

AASHE staff look forward to meeting and working with you here at the conference and throughout the year.

Please visit the AASHE booth in the EXPO for more information!

Majora Carter

**SUNDAY
OCTOBER 9**

Majora Carter hosts the Peabody Award winning public-radio series *The Promised Land* and has a long list of awards and honorary degrees, including a MacArthur Genius Fellowship. She's the only person to receive an award from John Podesta's Center For American Progress, and a Liberty Medal for Lifetime Achievement from Rupert Murdoch's *New York Post*. *Fast Company Magazine* named her one of the 100 Most Creative People in Business; *The New York Times* described her as "The Green Power Broker"; and the Ashoka Foundation's Changemakers.org recently dubbed Majora Carter "The Prophet of Local."

Ms. Carter founded and led Sustainable South Bronx, from 2001 to 2008 when few were talking about sustainability in places like the Bronx. By 2003 Majora coined the term: "Green the Ghetto" as she pioneered one of the nation's first urban green-collar job training & placement systems, and spearheaded legislation that fueled demand for those jobs. Majora's 2006 TED talk was one of six presentations to launch that groundbreaking website.

Since 2008, her consulting company, MCG has exported climate adaptation, urban micro-agribusiness, and leadership development strategies for business, government, foundations, universities, and economically under-performing communities.

Dr. Timothy White

**MONDAY
OCTOBER 10**

Dr. Timothy P. White, the eighth chancellor of University of California, Riverside, has seen the campus grow to more than 20,000 students for the first time in its history.

White came to UC Riverside in 2008 after serving as the University of Idaho's 16th president from 2004-2008. Through his leadership, the University of Idaho established a vision and strategic direction to further the University's role as the state's land-grant and flagship research university. Part of that plan entailed reinvesting resources in support of five key academic priorities: science and technology, liberal arts and sciences, entrepreneurial innovation, the environment, and sustainable design and lifestyle.

Prior to joining the University of Idaho, White served Oregon State University as provost and executive vice president, with an interim appointment as president. Chancellor White is currently co-Chair of the American Colleges and Universities President's Climate Commitment Steering Committee.

Dr. White was born in Argentina and his parents immigrated to Canada and then to California when he was young. White is a first-generation college graduate.

KEYNOTE SPEAKERS

Dr. Sandra Steingraber

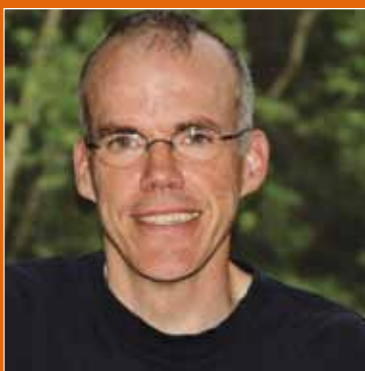

**TUESDAY
OCTOBER 11**

Join an intriguing dialogue with **Dr. Sandra Steingraber**, a speaker who The Sierra Club has heralded as “the new Rachel Carson,” and whom Chatham University, Rachel Carson’s own alma mater, selected to receive its biennial “Rachel Carson Leadership Award”.

Steingraber’s highly acclaimed book, *Living Downstream: An Ecologist’s Personal Investigation of Cancer and the Environment*, presents cancer as a human rights issue. Continuing the investigation begun in *Living Downstream*, Steingraber’s book, *Having Faith: An Ecologist’s Journey to Motherhood*, explores the intimate ecology of motherhood. Both a memoir of her own pregnancy and an investigation of fetal toxicology, *Having Faith* reveals the extent to which environmental hazards now threaten each stage of infant development.

Steingraber has keynoted conferences on human health and the environment throughout the United States and Canada including speaking engagements at Harvard, Yale, Cornell, Columbia, and the Woods Hole Research Center. She is recognized for her ability to serve as a two-way translator between scientists and activists. A columnist for *Orion* magazine, Sandra Steingraber is currently a scholar in residence in Ithaca College in Ithaca, New York.

STUDENT SUMMIT

Bill McKibben

**SUNDAY
OCTOBER 9**

Bill McKibben is the author of a dozen books about the environment, beginning with *The End of Nature in 1989*, which is regarded as the first book for a general audience on climate change. He is a founder of the grassroots climate campaign 350.org, which has coordinated 15,000 rallies in 189 countries since 2009. *Time Magazine* called him ‘the planet’s best green journalist’ and the *Boston Globe* said in 2010 that he was ‘probably the country’s most important environmentalist.’ Schumann Distinguished Scholar at Middlebury College, he holds honorary degrees from a dozen colleges, including the Universities of Massachusetts and Maine, the State University of New York, and Whittier and Colgate Colleges. In 2011 he was elected a fellow of the American Academy of Arts and Sciences.

Bill has been awarded Guggenheim and Lyndhurst Fellowships, and won the Lannan Prize for nonfiction writing in 2000. He has honorary degrees from Green Mountain College, Unity College, Lebanon Valley College and Sterling College.

Bill currently resides with his wife, writer Sue Halpern, and his daughter, Sophie, who was born in 1993, in Ripton, Vermont. He is a scholar in residence at Middlebury College.

PARALLEL PLENARY SPEAKERS

Global University Network For
Innovation (GUNI) Panel

**TUESDAY
OCTOBER 11**

David Orr

**TUESDAY
OCTOBER 11**

Global University Network For Innovation (GUNI) will host the Parallel Plenary Panel "Moving from Understanding to Action: Breaking Barriers for Transforming Higher Education's Commitment to Sustainability".

This session will explore the research outcomes of the GUNi study on the transformation of Higher Education towards sustainability. The aim of the session will be to discuss the barriers or difficulties that prevent HEI's from achieving this transformation and to propose solutions on how to overcome challenges.

The panel will specify the solutions through suitable and concrete actions. GUNI will follow up with the discussion outside of the session by inviting participants to the **Barriers Working Group** at the **GUNI Knowledge Community**, an on-line platform for building knowledge together based on web 2.0.

PANELISTS:

Tarah S.A. Wright, *Dalhousie University, Nova Scotia, Canada*

Daniella Tilbury, *University of Gloucestershire, United Kingdom*

Jesús Granados, *Global University Network for Innovation, Universitat Politècnica de Catalunya, Barcelona*

David W. Orr is a Paul Sears Distinguished Professor of Environmental Studies and Politics and Special Assistant to the President of Oberlin College and a James Marsh Professor at the University of Vermont. He has been a scholar in residence at Ball State University, the University of Washington, and has lectured at hundreds of colleges and universities throughout the U.S. and Europe.

Recent projects include a two year \$2.2 million collaborative project to define a 100 days climate action plan for the Obama administration, and a project to define the legal rights of posterity in cases where the actions of the present generation might deprive posterity of "life, liberty, and property." He is also active in efforts to stop mountaintop removal in Appalachia and develop a new economy based on ecological restoration and wind energy.

In an influential article in the Chronicle of Higher Education, Orr proposed the goal of carbon neutrality for colleges and universities and subsequently organized and funded an effort to define a carbon neutral plan for his own campus at Oberlin. Seven years later hundreds of colleges and universities, including Oberlin, have made that pledge.

PARALLEL PLENARY SPEAKERS

Leith Sharp

**TUESDAY
OCTOBER 11**

Mitch Thomashaw

**TUESDAY
OCTOBER 11**

Leith Sharp is currently a consultant and volunteer as the founding Chair of the Sustainability Futures Academy, an international collaboration between developing and developed countries to drive sustainability into the core business of higher education.

Previously, Leith spent 10 years at Harvard, becoming the founding director of what was to become Harvard's Office for Sustainability, which by 2008, was the largest green campus organization in the world. Following her work at Harvard, Leith was recruited to be the start-up Executive Director for the Illinois Green Economy Network, a partnership of 48 community college Presidents working together to drive green economic growth across the state. In this role, Leith successfully established a national model for effective state-wide college collaboration to green the curriculum, workforce training, campus and communities.

Before her work in the states, Leith was the first environment manager with the job of establishing one of world's first campus sustainability programs at University of New South Wales.

Along with his many consulting roles with AASHE, Second Nature and CEDD, **Dr. Mitchell Thomashaw** was most recently the president of Unity College in Maine, and previously spent 30 years as Chair of the Environmental Studies program at Antioch University New England.

He is currently working on authoring several texts based on sustainability in higher education, most notably *The Nine Elements of A Sustainable Culture* which provides a framework for advancing sustainable living and teaching in a variety of campus environments.

Dr. Thomashaw devotes his life and work to promoting ecological awareness, sustainable living, creative learning, improvisational thinking, social networking, and organizational excellence. Currently he is engaged in teaching, writing, and executive consulting, cultivating opportunities and exchanges that transform how people engage with sustainability and ecological learning.

AASHE Student Summit Partners

A Snapshot of Tomorrow's Leaders

The 2011 AASHE Student Summit will host more than 500 attendees, a keynote session with Bill McKibben founder of 350.org, and several motivating peer-to-peer presentation sessions.

Student Community Service Projects – Room 311 • 8AM

NORTHSIDE NEIGHBORHOOD BLITZ The Black and Gold City Goes Green campaign, PSEC, and Northside community groups are teaming up to blitz East Allegheny–Pittsburgh style! Equipped with compact fluorescent bulbs, recycling bags and schedules, and ways to cancel junk mail and recycle second fridges, blitz volunteers will go door to door engaging residents. Volunteers will be giving neighbors tools to save money, conserve energy, and help to tackle global warming and air pollution—one street at a time

RIVER AND TRAIL CLEAN-UP: Spend the morning outdoors with Pittsburgh's Friends of the Riverfront, Allegheny CleanWays, and Carnegie Mellon's Net Impact chapter as we help clean up some of the bike trails and waterways near the Convention Center. Activities will include brush clearing, weed cutting, earth moving, and wrestling out tires from the muddy riverbank. Come prepared to get dirty, have fun, meet other students and local volunteers, and become familiar with the strong environmental community of Pittsburgh. Must be 18 or older.

Additional Student Opportunities & Specials

- **STUDENT MEET-UP:** Stop by for this great networking opportunity Tuesday from 4:30- 6pm followed by a pay-on your- own group dinner at a local restaurant.
- Make sure you check out all of the **NETWORKING LUNCHEONS** —attend one that you are interested in!

AASHE Sustainability Student Diary Series: Call for Entries!

Inspired by the energy and creativity of the hundreds of students that attended the 2010 Student Summit, AASHE has debuted a new "Sustainability Student Diary" series.

Students at colleges and universities worldwide are encouraged to submit diary entries and photos that provide a snapshot of a student-led sustainability effort. Selected diaries are linked to AASHE's Campus Sustainability Perspectives Blog to invite comment and encourage interactivity among peers, with a featured spotlight and picture in the AASHE Bulletin.

Since its debut in November 2010, the series has featured students from the University of Chicago, Stanford University, Unity College, the University of British Columbia, the University of California, Berkeley and many more! Visit our website at www.aashe.org/connect/enewsletters/bulletin#diary for more information or email Margo Wagner at margo@ashe.org.

While you are in Pittsburgh stop by Franktuary show them your Student Summit or Conference Badge and receive 10% off a Meal Deal or 15% off a Locavore Meal Deal. Franks for eating sustainably! Located at 325 Oliver Avenue, in Trinity Cathedral. M - F, 10 am to 3 pm. www.franktuary.com

The Sustainability Tracking, Assessment & Rating System™ (STARS®) is a transparent, self-reporting framework for colleges and universities to measure their sustainability performance. STARS® was developed by AASHE with broad participation from the higher education community.

STARS® is designed to:

- Provide a framework for understanding sustainability in all sectors of higher education.
- Enable meaningful comparisons over time and across institutions using a common set of measurements developed with broad participation from the campus sustainability community.
- Create incentives for continual improvement toward sustainability.
- Facilitate information sharing about higher education sustainability practices and performance.
- Build a stronger, more diverse campus sustainability community.

The STARS® framework is intended to engage and recognize the full spectrum of colleges and universities in the United States and Canada — from community colleges to research universities, and from institutions just starting their sustainability programs to long-time campus sustainability leaders. STARS® encompasses long-term sustainability goals for already high-achieving institutions as well as entry points of recognition for institutions that are taking first steps toward sustainability.

Businesses can also be involved with the STARS® Program. STARS® sponsorship provides an outstanding opportunity for companies to demonstrate their support of campus sustainability and to increase their visibility among campus decision-makers who are engaged in sustainability.

Visit the STARS® website, stars.aashe.org, for all of the details regarding sponsorship, including sponsorship levels and benefits, which include:

- Listing in the STARS® Annual Review,
- Opportunity to participate in STARS® Webinars,
- Acknowledgement on the STARS® website,
- Logo recognition in STARS® publications,
- And more!

AASHE offers a variety of STARS® resources including monthly webinars and the STARS® Update e-newsletter. To register for STARS® and access these valuable resources visit the STARS® website, stars.aashe.org.

THIS WEEK ONLY!

Register for STARS® during the week of the AASHE 2011 Conference and receive a discount!

Contact the STARS® Team, stars@aaashe.org, at anytime regarding questions on STARS® Sponsorship.

Any institution that is a new registrant to the STARS® Program between October 9 -14, 2011 will receive a \$250 discount! Registration for AASHE members is \$650 (a discount from the original fee of \$900) and \$1,150 for Non-members (a discount from the original fee of \$1,400).

Don't miss your opportunity to show your institution's commitment to sustainability while taking advantage of this limited-time offer!

AASHE MISSION AND VISION

OUR MISSION

AASHE's mission is to empower higher education to lead the sustainability transformation. We do this by providing resources, professional development, and a network of support to enable institutions of higher education to model and advance sustainability in everything they do, from governance and operations to education and research.

OUR VISION

AASHE envisions a prosperous, equitable, and ecologically healthy world. In such a world, higher education plays a vital role in ensuring that people have an understanding of the interdependencies between environmental, social, and economic forces and the skills and abilities to meet sustainability challenges.

THANK YOU *for* YOUR SERVICE!

AASHE CONFERENCE COMMUNITY SERVICE PROJECT

Room 311 • 10AM

In conjunction with Pittsburgh Cares, AASHE 2011 Conference attendees will participate in the first ever AASHE Community Service project, a great way to not only network with colleagues from across the country, but to demonstrate the direct ties between higher education, the community, and issues of sustainability.

It is essential to reinforce that we not only work within our own campuses, but also the community at large. Revitalization and Mainstreet Vacant Storefront Beautification in Lawrenceville, a suburb of Pittsburgh, will showcase an environmental and sustainable organization based in the Greater Pittsburgh area, and will have individuals from across the United States working together to improve Pittsburgh.

For a number of decades, the Lawrenceville neighborhood sat in disrepair and decay until a number of community groups and organizations, like Lawrenceville United and Lawrenceville Corp, took to the task of uncovering the beauty and bringing creative, sustainable ideas to revitalize the area.

So often we attend conferences and we mainly go back and forth between the hotel and the conference center. Take advantage of this chance to engage with the landscape and the community of Pittsburgh!

SCHEDULE OF ACTIVITIES:

Sunday, October 9

- 10am Kick Off Orientation at Daniel Lawrence Convention Center
- 11am Community Service Project in Lawrenceville
- 3pm Post Service Celebration

GREENING *of the* CONFERENCE

- Working with NextEra as a dedicated Carbon Offset Sponsor to create a partnership focusing on mitigating emissions created from attendee and vendor travel and event center usage.
- Offering a Ride Share program through Zimride to all attendees traveling by car.
- Working with the David L. Lawrence Convention Center, GLAD and Waste Management to ensure waste diversion through onsite composting and single stream recycling efforts.
- Partnering with local hotels who offer sustainability highlights including onsite recycling and rewards programs for those who chose to skip laundering services.
- Attendees have been active in pledging to bring their own coffee mug, water container, pens and paper, and re-sourced event lanyard so as not to create event related material waste.
- Partnering with Levy Catering at the Convention Center to offer local, fair trade and vegan options for every meal and reusable china or compostable packaging.
- Utilizing EPEAT Gold Standard computers in all concurrent and general sessions.
- Offering hydration stations throughout the conference and eliminating the use of plastic/disposable bottled water.
- Controlling room temperatures and energy output from light sources in conjunction with the Convention Center and AV company partnerships.
- Partnering with Stetson, a General Service Contractor for the Exhibit Hall, whose business plan focuses on sustainability measures from supply chains to onsite material usage.
- Creating Pedal-a-Watt bike charging stations and EcoStrip computer kiosks to save energy.
- From energy usage reductions, water conservation, waste reduction (compostable paper products, recycling, food donation), green certified cleaning products, local foods, free trade coffee, water stations vs. water bottles, and bulk condiments; these are just a few of the ways AASHE continues to fulfill the mission of your organization.
- Created signage in 2010 that will be reused for 2011 and future conferences.

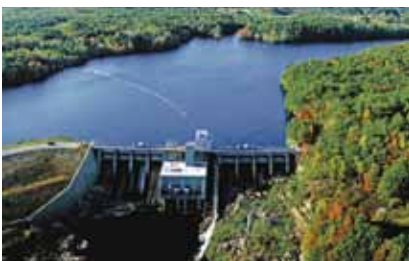

America's leading producer of wind and solar energy

NextEra Energy Resources is recognized as a leading clean energy provider. Operating in 26 states and Canada, we have a generation capacity of approximately 18,900 net megawatts. Approximately 95 percent of our electricity is derived from clean or renewable sources, such as wind, solar and hydroelectric energy.

We are proud to support the 2011 AASHE Conference as the Official Carbon Offset Provider.

CREATING CONVERSATION *through* ART

7: I am a photographer/street artist working and living in Hobart, Tasmania. After studying at Clark University in Worcester, MA, I moved to Australia in 2005 to study at the University of Tasmania.

I graduated from UTAS with a Master of Art Design and Environment and I am currently finishing a research MFA. My research is investigating what we can learn about culture and place through the photography of street art. My painted work revolves around themes of climate change, place, and nature.

My vision for the installation in the AASHE EXPO Hall is to depict a thriving green future for the city of Pittsburgh. I want the painting to read as a story, scrolling from left to right. On the left it will be night, stormy and dark, rustic and rundown. As the painting scrolls onwards, city lights will transition into a shining, breathing, eco-friendly city. The idea is to display a transformation from past to future, night to day. It will incorporate key elements of the cities culture and environment, and will refer to landmarks and architecture found in and around Pittsburgh.

Look for the Artist Corner
in the EXPO Hall!

SOMETHING *in the* WATER

Plastics are significant culprits contributing to the toxins in our water that we pass on to infants through mothers' milk. Highlighting this dark side of our dependency on plastic bags, concerned people are crocheting breast shapes from plastic bags from across the world.

Wendy Osher's *Something in the Water* sculptural installation calls into question plastic's inability to decompose. Through leaching, plastic bags are linked to toxins in the bloodstream that affect women's breast milk.

Osher, a Pittsburgh local, along with crocheting groups from around the world, crocheted abstracted breast-like forms using plastic bags, which will be suspended in mid-air to create a reef-like environment.

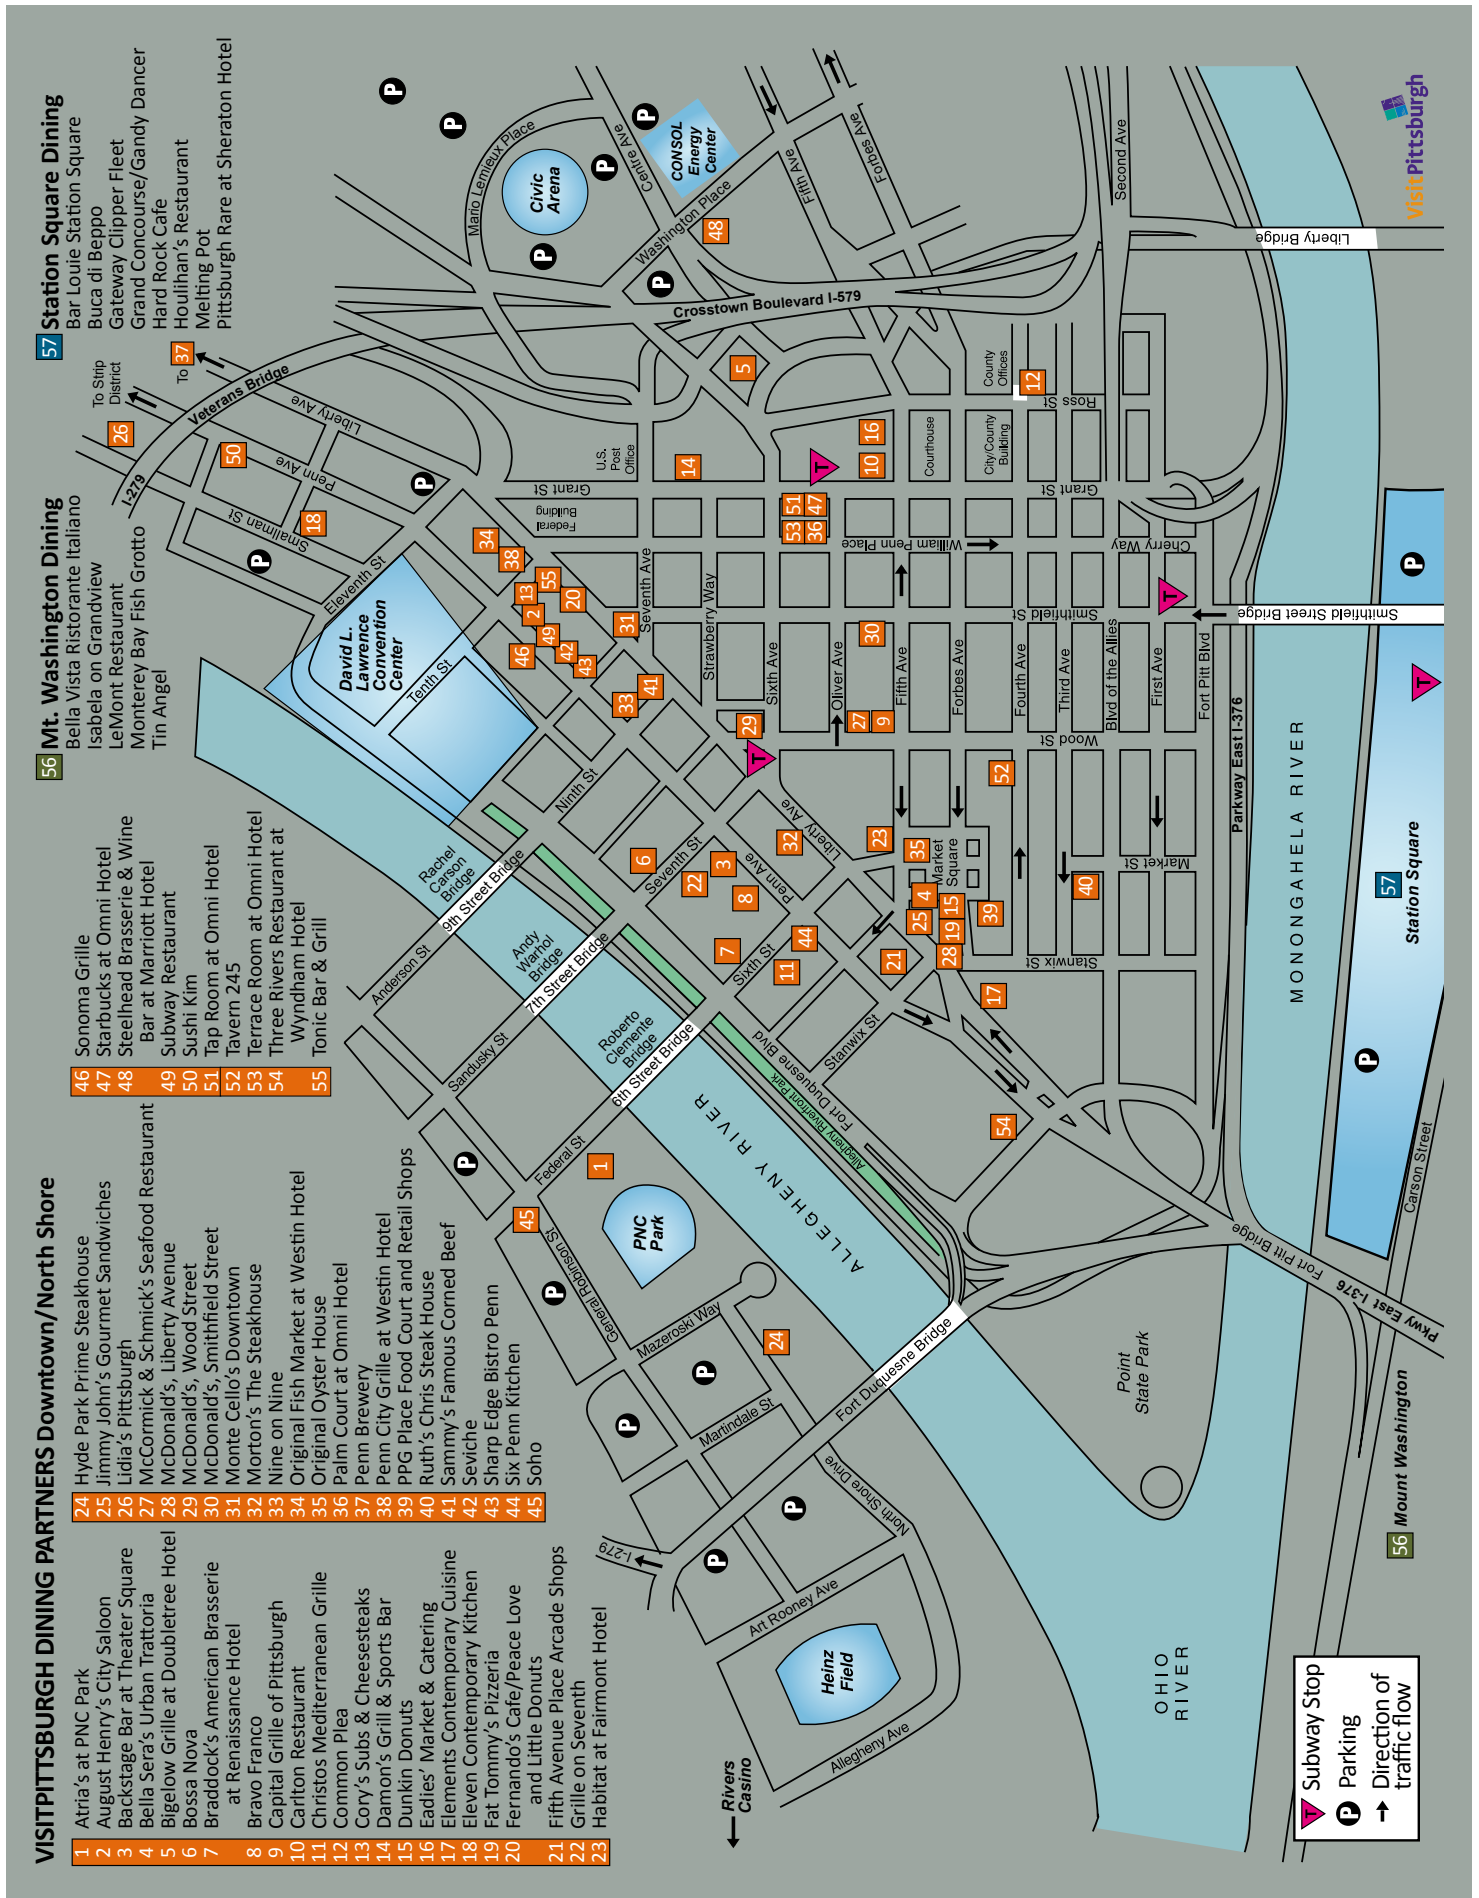

See more of Wendy's work at the Space Gallery, within walking distance of the convention center at 812 Liberty Avenue. The exhibit, titled *Extraction*, will host Osher's installation "Where the Bee Sucks," addressing issues related to pollination.

THINK GREEN.®

HELP YOUR CAMPUS EARN STARS CREDIT.

TreeFrog contributes to **STARS** credit because it is made from 100% recycled agricultural fiber – totally tree free. Environmentally conscious campuses will love the fact that we only use recycled sugar cane which means a much smaller carbon footprint overall. TreeFrog is a premium copy paper (20 lb., 92 brightness) that can be recycled with the traditional papers made from trees. What's more TreeFrog is priced similarly to recycled paper and performs brilliantly at the office, the home or wherever you need to make beautiful prints.

Visit us at **Booth #319** to learn more about TreeFrog products.

LUNCH MEETINGS

MONDAY, 12:15-1:15 PM

ROOM 301, 302

Networking Luncheon for Business Officers and Staff

From energy transition planning to behavior change, campus leaders understand that as stewards of the institution, sustainability is a business imperative. By acting as change-agents to guarantee long-term financial sustainability of the institution, increasing efficiency of operations, avoiding risks, and generating cost savings, business officers on every campus affirm their core values. Join your peers for an informal networking lunch to discuss campus challenges, and share practical approaches to help address the management of your campuses environmental footprint. Hosted by NACUBO.

ROOM 303

AASHE Membership Luncheon for Non-members

On the fence about becoming a member of AASHE? Grab your lunch in the EXPO Hall and come listen to some of AASHE's members talk about why they are members and why you should be too!

ROOM 304, 305

Higher Education and Student Affairs Networking Luncheon (Hosted by NASPA & ACPA)
Drop by and join your student affairs colleagues for a conversation about the role of student affairs professionals in the sustainability movement. Hosted by the NASPA Knowledge Community on Sustainability and the ACPA Task Force on Sustainability. Information on the upcoming Institute on Sustainability (June 17-19, 2012) at the University of Colorado in Boulder will be available.

ROOM 306

STARS® Steering Committee Lunch Meeting
Private

ROOM 318

Faith-Based Luncheon
This networking luncheon aims to build community among sustainability champions at faith-based colleges and universities. Panelists from Point Loma Nazarene, Santa Clara University, the Evangelical Environmental Network, the Catholic Coalition on Climate Change, and Center for Environmental Leadership will briefly discuss how sustainability is approached at faith-based institutions. This will spark ideas for round table discussions about how sustainability champions at faith-based schools can use their institution's mission and identity to build capacity for sustainability on campus.

ROOM 401

Canadian Alliance of College and University Sustainability Professionals (CUSP)
CUSP is an informal cross-Canada network of campus sustainability professionals in universities and colleges. Come hear updates from action items created at the last year's CUSP AASHE session. Participate in discussing future directions of the CUSP network.

ROOM 402

Society for College and University Planning (SCUP) Networking Luncheon
Join SCUP leaders for lunch. It will be an almost entirely informal roundtable, with introductions and sharing of some questions and insights. There will be only a brief formal presentation with a few announcements.

7TH ANNUAL
**SMART AND
SUSTAINABLE**
CAMPUSES
CONFERENCE

APRIL 16 & 17, 2012
AT THE UNIVERSITY OF MARYLAND

Join colleagues and take an in-depth approach toward defining, understanding, and creating solutions to sustainability issues facing our campuses.

Moving from outputs to outcomes, from individuals to communities, and from knowledge transfer to dialogue.

LUNCH MEETINGS

TUESDAY, 12:15-1:15 PM

ROOM 301, 302**Community College Networking Lunch**

Community College Meet Up (sponsored by AACC's SEED initiative). When it comes to advancing sustainability initiatives on campus, community colleges face a unique set of challenges. Come join other 2-year college representatives in discussing these common hurdles and sharing promising practices. As in years past, this session will be highly participatory. This year will include a brief presentation on the role community colleges play in advocating for local and state-level energy policies (e.g. renewable standards, building code changes) as a means for facilitating green job growth.

continued...

ROOM 303**2012 Host Committee Interest Luncheon**

In 2012 AASHE will be bringing its annual conference to Los Angeles, California from October 14-17th. If you are interested in being part of the Host Committee or learning more about how you can be part of planning the AASHE 2012 Conference & EXPO please join us at this luncheon.

ROOM 304, 305**Regional & State Leadership Luncheon**

Open to the leadership of state and regional campus sustainability organizations. During the past decade a number of state and regional organizations of higher education sustainability advocates have emerged and created networks, held conferences and workshops, and created websites and resource centers. In this luncheon, the leadership of these organizations are asked to come together to 1) share promising practices regarding the formation and maintenance of state and regional organizations and 2) discuss the possible relationship between AASHE and these organizations.

ROOM 306**International Attendee Networking Luncheon**

A networking opportunity for conference attendees that are not from the US. Hosted by Yolanda Moses, Special Assistant for Excellence and Diversity, Chancellor's/EVC Provost Office at the University of California, Riverside; member of the AASHE Board of Directors and Chair of the Board of Director's International Committee.

ROOM 319**Northeast Campus Sustainability Consortium (NECSC)**

Join NECSC for a lunchtime regional networking event. Founded in 2004, each year NECSC has convened over 80 institutions of higher education from the northeast United States and Eastern Canadian Provinces. Meet with sustainability professionals from your region and learn more about the value of participating in a regional network. The meet-up will also be an opportunity to give input on the themes and sessions of the spring 2012 NECSC annual conference to be held at Syracuse University in upstate New York. The northeast region includes New Hampshire, Massachusetts, Connecticut, Maine, New Jersey, Vermont, Quebec, Ontario, Pennsylvania, Prince Edward Island, New York, Rhode Island, New Hampshire, and Nova Scotia, although the meet-up is open to all schools.

ROOM 401**College and University Recycling Coalition (CURC)**

Collegiate recyclers are encouraged to stop in for the CURC lunchtime members meeting. CURC steering committee members will give an update on the status of CURC and organization goals and programs for the upcoming year. This meeting is open to everyone including non-members.

ROOM 402**Higher Education Associations Sustainability Consortium (HEASC)**

HEASC is an informal network of higher education associations with a commitment to advancing sustainability within their constituencies and within the system of higher education itself. The current HEASC member associations see the need for developing in-depth capability to address sustainability issues through their associations and have decided to work together in this effort. HEASC hopes to involve all higher education associations to get the broadest perspectives and produce the greatest effectiveness and synergy in our efforts. Come and find out how you can help.

Room 403**Billion Dollar Green Challenge Lunch**

Come find out more about the Billion Dollar Green Challenge—a new initiative inspired in part by the Presidents' Climate Commitment. The Challenge, launching in fall 2011, will work with students and schools across the country to generate a combined total of \$1 BILLION DOLLARS to be invested through self-managed green revolving funds at colleges across the country!

ROOM 404, 405**STARS® Technical Advisor Meeting**

NETWORKING MEET-UPS

TUESDAY, 4:30-6:00 PM

ROOM 301, 302

Student Networking Opportunity

This is an opportunity for students to network during the conference. Groups present may include Net Impact, National Wildlife Federation Campus Ecology, and EPA P3.

ROOM 303

NY Coalition for Sustainability in Higher Education

Are you from a campus in New York State? Come together with others from NY to network and discuss sustainability on our campuses. The New York Coalition for Sustainability in Higher Education (NYCSHE) has recently formed in order to better understand what others are doing across the state and how we can help support one another through sharing resources and information. Join us at this networking session to learn more, become a member (it's free!), and provide us with your thoughts on how this coalition can best support you and your efforts. We are open to any and all campuses from New York State!

ROOM 306

Campus Green Funds: Best Practices & Lessons Learned

Are you looking to start a campus green fund at your institution? Are you a campus green fund staff member? Are you looking for ways to improve and expand your existing campus green fund? This meeting will bring together students, faculty, and staff who are involved with the implementation and management of campus green funds. Please join us for lively conversation regarding best practices and lessons learned during the implementation and management periods of campus green funds.

ROOM 401

Green Tower Sustainability Info Session

In this info session, attendees will learn about several existing programs for sustainable student leaders created by Green Tower Sustainability (GTS). These programs include our Free Mentor Services, Sustainable State Coalition Project, Students Opposing Styrofoam (SOS) campaign, and GTS's Webinar series. In addition to offering these programs, there are many ways to become a part of these projects, which will be explained in the session.

ROOM 402

Libraries for Sustainability

Join others passionate about the role of academic libraries as leaders of sustainability efforts in higher education. This will be a time to get to know each other; share successes, struggles, resources and ideas; and create a shared vision for sustainability in libraries.

International Journal of

Sustainability in Higher Education

The issue of sustainability in a higher education context is, to some extent, a rather recent theme. Current journals are focusing either on sustainable development *per se*, or on general higher education. There are no specific fully-refereed outlets to date, to disseminate the broad body of work and knowledge currently available on sustainability in a higher education context. *International Journal of Sustainability in Higher Education (IJSHE)* is therefore the first scholarly publication to specifically address the need for the dissemination of information on sustainability matters at higher education institutions.

Materials particularly suitable for the journal deal with one or more of the following contexts: Environmental management systems, Sustainable development, Curriculum greening, Agenda 21, Operational aspects of universities, Energy, water, recycling, waste management, Planning and design of campuses, Environmental reports, Environmental policies and action plans, Staff and student initiatives, Other themes associated with the above or emerging contexts will also be considered.

Glad® is pleased to be the Official Waste Diversion Sponsor of the 2011 AASHE Conference & Expo.

Visit us at booth #604!

GLAD TO WASTE LESS

The GLAD TO **WASTE LESS** campaign is helping the AASHE 2011 Conference and Expo go **One Bag**—working toward an ultimate goal of **sending only one bag of trash to landfill**, with the remainder being diverted to compost and recycling.

Please stop by our booth #604

to learn more about how we are taking small steps to waste less and get more details about Glad's college football waste diversion grants.
