WELCOME TO THE 2012 AASHE CONFERENCE & EXPO

Co-Chair

Bonny

I am incredibly pleased to have you here with us at the 2012 edition of the AASHE conference. As you probably know, this is the biggest campus sustainability conference in North America, and in my experience the best way to get an idea of the breadth of exciting initiatives ongoing at our campuses. The Conference Steering Committee has taken your feedback from previous years into account in planning, programming and logistics so that we could provide you with the best possible experience while at an extremely competitive price.

We want you to go home inspired, with new or different tools in your pocket that could help you hit the ground running once you get back to the office, and with new connections with people who could help you on your way (and vice versa!). I am positive that you will have an amazing time: if you do (or if you don't), I strongly encourage you to get in touch with us with your feedback on how we could potentially make your conference experience better. Remember: this conference is programmed by campus sustainability people, for campus sustainability people, and together we can foster and strengthen the collaborative relationships that propel us forward towards sustainable campuses, and a more sustainable world for all. Have a wonderful, productive conference!

In designing this year's program and conference theme, "Investing in the Future," we drew heavily on feedback from attendees of past AASHE conferences and a series of rich discussions about the importance of, in the words of Oscar Romero, "taking the long view." As members of the higher education community, we work to invest in the future: students, faculty, staff, campuses, and communities. Sustainability can be thought of as a framework for improving our world. In my experience, the social and economic components of the amorphous concept of sustainability often play second fiddle to the environment.

The Steering Committee wanted to challenge ourselves and you to consider the barriers, opportunities, and solutions at our campuses and communities through the lens of economics, and consider what it means and requires to invest in our future. I hope the program, form, and energy of this year's conference allow you to put aside your daily challenges, connect with your peers, learn about the innovative work we are all doing, and inspire you to "take the long view."

Bonny's message

THANK YOU!

WELCOME! FROM OUR HOST CAMPUS SPONSORS

DIANNE F. HARRISON, PH.D. CALIFORNIA STATE UNIVERSITY, NORTHRIDGE

Welcome to California State University, Northridge, where I am honored to serve as president.

Cal State Northridge—the academic and economic leader of the San Fernando Valley—has a long history of investment in sustainable infrastructure and practices.

In 2007 it became one of the only institutions in the world with a grid-connected fuel cell plant. The 1 megawatt plant generates up to 15 percent of the total campus electricity, emitting only 70 percent of the CO2 of conventional power generation. Its waste heat is captured for campus heating and its greenhouse gas emissions are sequestered by an adjacent rainforest, built specifically for this purpose. Cal State Northridge also has one of the largest solar electric systems of any public university in California. Three solar installations feed into a power grid that distributes electricity throughout the campus.

The university also values sustainability related to building design and construction. Our new Valley Performing Arts Center has earned LEED Gold Certification due to many

innovative design elements, including a state-of-the art HVAC system, reflective “cool roof” technology, and energy saving and water conservation systems.

CSUN has a record of research and development partnerships between its academic colleges and physical plant management, which include the design and installation of its sustainable energy facilities. In 2008, the university furthered its commitment to sustainability by chartering the Institute for Sustainability, which undertakes campus greening initiatives, promotes sustainability research, develops student education in sustainability, and puts best practices into action.

We are pleased to be a host of this important conference. I wish you a productive AASHE meeting and hope you enjoy your visit to our campus.

“Cal State Northridge—the academic and economic leader of the San Fernando Valley—has a long history of investment in sustainable infrastructure and practices.”

Gene D. Block
Chancellor, University of
California, Los Angeles

WELCOME! FROM OUR HOST CAMPUS SPONSORS

GENE D. BLOCK UNIVERSITY OF CALIFORNIA, LOS ANGELES

On behalf of the students, staff and faculty of UCLA, I am delighted to welcome you to Los Angeles for the Association for the Advancement of Sustainability in Higher Education 2012 Conference.

Our region is a leading green economy, and clean technology is a major driver of the growth strategy for 21st century Los Angeles. We at UCLA are proud to play an important role in the city’s sustainable future. For example, we are a founding partner and driving force behind CleanTech Los Angeles, a consortium that brings businesses and government together with our city’s world-class universities to foster investment in green business and harness our wealth of intellectual capital around sustainability.

At the same time, as the University of California’s largest campus, we recognize that UCLA can make a tremendous impact by reducing our own carbon footprint. During the past two decades, we have added nearly 8 million square feet to campus; in that span our greenhouse gas emissions have been nearly flat—a reduction in GHG of 27 percent per square foot. UCLA is ahead of schedule in our objective of meeting the UC goal of reducing greenhouse gas emissions to 1990 levels by 2020, we have already achieved UC’s target of 75 percent waste diversion, and we are on our way to zero waste by 2020.

A key element in these accomplishments has been our remarkable 44 megawatt cogeneration plant, which uses waste heat from electricity generation to produce steam and chilled water for heating and cooling, and is twice as efficient as a standard power plant. This impressive facility will be just one highlight of a campus tour during the conference—another is our newly opened Court of Sciences Student Center, certified LEED Gold by the U.S. Green Building Council—and I hope you will make UCLA a part of your AASHE itinerary.

Given the diversity of environments in and around Los Angeles, our city is an ideal living laboratory for sustainability research. So it’s no wonder that students and faculty from throughout campus are engaged in climate change policy and sustainability science. At the epicenter of this work is our renowned Institute of the Environment and Sustainability, which houses seven research centers and coordinates research among the many other UCLA units that are undertaking environment and sustainability scholarship.

Thank you for your commitment to fostering sustainability research and sustainable practices in higher education and congratulations on your participation in AASHE 2012. I wish you a successful conference and an enjoyable visit to Los Angeles.

“Our region is a leading green economy, and clean technology is a major driver of the growth strategy for 21st century Los Angeles.”

Timothy P. White
Chancellor, University of
California, Riverside

WELCOME! FROM OUR HOST CAMPUS SPONSORS

TIMOTHY P. WHITE
UNIVERSITY OF CALIFORNIA, RIVERSIDE

The University of California, Riverside, welcomes the AASHE Conference and is delighted to help sponsor an organization that promotes the kind of work that our researchers began in the 1940s.

Twenty years before Rachel Carson helped kick-start the environmental movement with "Silent Spring," Riverside scientists for the first time linked crop failure to smog. UC Riverside faculty and scientists have spent the intervening 60 years examining the complex chemistry of air pollution and smog, and their effect on plant and human life, resulting in higher-yield crops, healthier forests, cleaner vehicles and improved public health.

The fledgling UC Riverside campus created the statewide Air Pollution Research Center in 1961 and 20 years later incorporated engineers into the mix. The UCR College of Engineering Center for Environmental Research has helped formulate more than a dozen state and federal regulations, from boat emissions to diesel fuel. Now, a new generation

of UCR scientists is incorporating global climate change and public health studies into their research through the Centers for Sustainable Suburban Development, for Water resources and the School of Public Policy.

Students and administration work together to bring a whole system approach to campus sustainability. A self-imposed student fee will pay for solar panels for their student union building. UCR certified its first LEED gold lab, installed a one MW battery to reduce peak energy demand, and drives alternative fuel vehicles. And I am promoting the institutionalization of campus sustainability through the American College and University Presidents' Climate Commitment.

We know sustainability matters. We know research and education work. We are here to learn and we hope you will join us.

"UC Riverside faculty and scientists have spent the intervening 60 years examining the complex chemistry of air pollution and smog, and their effect on plant and human life..."

AASHE UPDATES

RESOURCE CENTER

One of the most popular benefits of AASHE membership, the Resource Center continued to be a leading source of information on sustainability in higher education for diverse stakeholders. Throughout 2011 AASHE resources provided campus administrators, faculty, staff and students, and the businesses that serve them, with timely and essential tools to lead the sustainability transformation.

After a re-design in early 2011, the Resource Center experienced a significant jump in visitors compared to 2010 — a 40% increase in unique page views, and a 24% increase in total page views - a sign that people were increasingly engaging with our resources.

One of the most exciting new resources was our interactive database of campus solar photovoltaic installations — a robust resource featuring reports, analyses, and hundreds of example installations. Sponsored by AASHE Business Leader AMSOLAR, the database quickly became the most visited and cited page on the AASHE website, receiving visits from over 130 countries.

AASHE's Campus Sustainability Discussion Forums received 400 queries and responses in 2011 and more than 16,700 visitors, an increase of 2,500 visitors over the previous year.

PUBLICATIONS

In 2011 AASHE debuted its first e-book for sale. The 2010 Campus Sustainability Review, was offered on the Kindle e-reader and also made available free to members in PDF format.

AASHE also released the results of the 2010 Higher Education Sustainability Staffing Survey in 2011. It showed that those with positions in the higher education sustainability workforce report a strong sense of job security and feel satisfied with the work they are doing, and revealed the continued growth of sustainability staff positions.

The number of subscribers to the weekly AASHE Bulletin grew from 10,723 to 11,000 in 2011, and 50 issues were published. The newsletter continued to garner above-industry average open and click-through rates per issue. It also continued to drive traffic to our website, including our blog and discussion forums. Website traffic typically increased by 15% on days the Bulletin was published.

We want know what you think about AASHE publications. The AASHE Resource Center staff are available at the AASHE exhibit booth during EXPO hours.

CURRICULUM

AASHE hired an Education Manager in April 2011, to address education for sustainability efforts and develop coherent professional development opportunities. An Education Steering Committee, was created to guide the development of AASHE's educational programs and ensure that member needs were met.

AASHE continued to offer our popular Sustainability Across the Curriculum Leadership Workshops. More than 74 faculty members from 54 institutions left these workshops prepared to advance education for sustainability at their campus by working with other faculty in fostering curriculum change.

At the AASHE 2011 conference, 120 educators participated in the Curriculum Convocation, an interactive workshop that provided strategies for integrating sustainability across the curriculum.

Development of a new, interactive section of the AASHE website, tentatively called the "Academic Commons," was initiated in 2011. The intent is to provide a place for faculty to explore critical questions and issues online, advancing the integration of sustainability into curricula. Best practices and innovative examples of sustainability education would be able to come alive through case study videos and interviews.

MEMBERSHIP

AASHE membership grew by 1.4% in 2011, from 1,089 members and associate members at the start of the year to 1,103 by the end. The number of campus members grew by 2.3%, reaching 858 at year's end. Renewal rates for campus members were 87% throughout the year, while businesses renewed at about the 70% rate and other associate members (such as non-profits) at 81%. The positive growth during a tough economic climate in 2011 demonstrates the strong commitment by AASHE members to continued advancement of sustainability in higher education.

The invaluable resources provided by AASHE, as well as the many networking and professional development opportunities continued to bring value

to our members. Through webinars, workshops, and the annual conference, AASHE provided opportunities for individuals to interact with a diverse and engaged community. With our wide array of member-only and public resources, AASHE continued to be at the forefront in leading the sustainability transformation and supporting the great work and accomplishments of our members.

The Membership staff organized a series of educational webinars in 2011 sponsored by higher level business members as part of the Business Alliance Program. These well-attended webinars covered such diverse topics as large-scale campus solar projects, sustainable design strategies, and bed bugs and chemicals of concern in dorms.

THANK YOU AASHE MEMBERS

BUSINESS LEADER MEMBERS

BUSINESS SUPPORTER MEMBERS

The Sustainability Tracking, Assessment & Rating System™ (STARS®) is a transparent, self-reporting framework for colleges and universities to measure their sustainability performance. STARS was developed by AASHE with broad participation from the higher education community.

STARS is designed to:

- Provide a framework for understanding sustainability in all sectors of higher education.
- Enable meaningful comparisons over time and across institutions using a common set of measurements developed with broad participation from the campus sustainability community.
- Create incentives for continual improvement toward sustainability.
- Facilitate information sharing about higher education sustainability practices and performance.
- Build a stronger, more diverse campus sustainability community.

The STARS framework is intended to engage and recognize the full spectrum of colleges and universities in the United States and Canada — from community colleges to research universities, and from institutions just starting their sustainability programs to long-time campus sustainability leaders. STARS encompasses long-term sustainability goals for already high-achieving institutions as well as entry points of recognition for institutions that are taking first steps toward sustainability. International institutions seeking participation in STARS are encouraged to register for the STARS International Pilot Program through the STARS website.

Businesses can also be involved with the STARS Program. STARS sponsorship provides an outstanding opportunity for companies to demonstrate their support of campus sustainability and to increase their visibility among campus decision-makers who are engaged in sustainability.

Visit the STARS website, www.stars.aashe.org, for all of the details regarding sponsorship, including sponsorship levels and benefits, which include:

- Listing in the STARS Quarterly Review
- Opportunity to participate in STARS webinars
- Acknowledgement on the STARS website
- Logo recognition in STARS publications
- And more!

AASHE offers a variety of STARS resources including webinars and the monthly STARS Update e-newsletter. To register for STARS and access these valuable resources visit the STARS website, www.stars.aashe.org.

LIMITED-TIME STARS DISCOUNT OPPORTUNITY

Register for STARS at the AASHE 2012 Conference and receive a discount! Any institution that is a new registrant to the STARS Program between October 10 - 21, 2012 will receive a \$250 discount! Registration for AASHE members is \$650 (a discount from the original fee of \$900) and \$1,150 for Non-members (a discount from the original fee of \$1,400).

Innovation in Higher Education: Leading the Change

The diverse crises that the planet faces will only be solved when companies and communities implement authentic and innovative sustainability practices. Institutions of higher education have the lead role to play in creating the next generation of thought leaders our world needs. They will either succeed in this or become increasingly irrelevant

It is therefore encouraging that there are an increasing number of colleges and universities now including sustainability as part of their campus management programs, curriculum, and offerings.

I am a professor of a field that did not exist when I went to school. In this young field most of the thought leaders are still among us, and are making it up as we go forward, this may challenge academic traditionalist but it excites students. Unleashing this creativity will create the future for higher education.

L. HUNTER LOVINS is president and founder of the Natural Capitalism Solutions (NCS) (www.natcapsolutions.org). NCS educates senior decision-makers in business, government and civil society to restore and enhance the natural and human capital while increasing prosperity and quality of life. In partnership with leading thinkers and Implementers, NCS creates innovative, practical tools and strategies to enable companies, communities, and countries to become more sustainable. Trained as a sociologist and lawyer (JD), Hunter is also currently faculty at Bainbridge Graduate institute and the chief insurgent of the madrone project.

Lovins has consulted for scores of industries and governments worldwide. She has consulted with large and small companies including the International Finance Corporation, Royal Dutch Shell, Interface, Clif Bar, and Wal-Mart. Governmental clients include the Pentagon, U.S. Environmental Protection Agency, Department of Energy and other agencies, numerous cities, and the governments of Jamaica, Australia, and the U.S. She has also served an advisor to the Energy Minister of the Government of Afghanistan. Recipient of such honors as the Right Livelihood Award, Lindbergh Award and Leadership in Business, she was named Time Magazine 2000 Hero of the Planet and in 2009 Newsweek dubbed her a "Green Business Icon."

She has coauthored nine books and hundreds of papers, including the 1999 book, Natural Capitalism, 2006 e-book Climate Protection Manual for Cities, and the 2009 Transforming Industry in Asia. She has served on the boards of governments, non- and for profit companies. Hunter's areas of expertise include Natural Capitalism, sustainable development, globalization, energy and resource policy, economic development, climate change, land management, and fire rescue and emergency medicine. She developed the Economic Renewal Project and helped write many of its manuals on sustainable community economic development. She was a founding Professor of Business at Presidio Graduate School, one of the first accredited programs offering an MBA in Sustainable Management, and is currently Chief Insurgent for the madrone project.

THE CROSSROADS PROJECT | KEYNOTE

Monday, October 15

At the dawn of the 21st century, humanity has arrived at an extraordinary Crossroads

— a time and place where scientific ability to identify unprecedented risk, decades in advance, intersects society's seeming inability to respond. Little of humanity's course, as currently imagined, is sustainable—not our energy, not our economy, not our environment. But we are possessed of the knowledge we need, and a tide is rising. The Crossroads Project is a response to this reality, grounded in science, elevated by art, in service of genuine understanding.

At the core of the project is live performance. The Fry Street Quartet joins with physicist and educator Dr. Robert Davies in an evocative presentation combining music, information, imagery—and a dash of theater — merging intellectual with visceral, taking us from understanding to belief. Weaving together a chorus of artistic and scientific voices responding to one of society's greatest challenges, The Crossroads Project is a deep-seated contemplation of the choices before us, the paths they forge, and the dramatically different landscapes to which they lead.

ROBERT DAVIES

A physicist and educator, and Assistant Director for Assessment and Technology at University of Utah, Rob has served as an officer and meteorologist in the U.S. Air Force, worked for NASA on the International Space Station project, and taught on the faculty of three universities. His scientific research has included interactions of spacecraft with the space environment, the fundamental nature of light and information, and Earth's changing climate. For the past six years, Rob's work has focused on communicating the science of climate change, energy and sustainability.

ROBERT WATERS, Violin

A violinist of remarkable versatility, Robert Waters studied at the Cleveland Institute of Music, the Yale School of Music, and the Juilliard School. His range of experience includes positions such as Concertmaster of Chicago's Music of the Baroque, founding member of the Jupiter Trio and the Callisto Ensemble, Associate Concertmaster of the San Francisco Opera Orchestra and Associate Professor of Violin at the DePaul University School of Music. In his current position with the Fry Street Quartet, Robert is on the faculty at USU's Caine College of the Arts.

REBECCA MCFAUL, Violin

Rebecca is a founding member of the Fry Street Quartet, and teaches on the faculty of Utah State University's Caine College of the Arts. She is a graduate of the Oberlin Conservatory and Northwestern University. As a teenager, Rebecca spent an inspiring summer at the Tanglewood Institute in the presence of great artists such as Leonard Bernstein and Yo Yo Ma, after which the pursuit of a life in music became imperative. It was the medium of the string quartet, with its fantastic literature, range of expression, and ability to connect with an audience that called; the Fry Street Quartet has been and continues to be the realization of that pursuit.

BRADLEY OTTESEN, Viola

Bradley teaches in the Caine College of the Arts at Utah State University. He holds a master's degree from the New England Conservatory and a bachelor's from Northwestern University. The different phases of his early career were rich and varied — he has been based in Boston, Massachusetts and Calgary, Alberta. He has taught at every level — from public school to university, and values his experience of performing alongside doctors and lawyers equally with being the tenured member of a symphony orchestra.

MARC JOHNSON, Guest Cellist

At the age of eighteen Marc became the youngest member of the Rochester Philharmonic Orchestra and has also been a member of the Pittsburgh Symphony Orchestra. For thirty-five years, Marc performed as the cellist of the renowned Vermeer Quartet. They received three Grammy nominations and appeared regularly at the world's great music festivals. Marc has held residency positions with Northern Illinois University, Bay Chamber Concerts in Rockport, Maine, and The Royal Northern College of Music in Manchester, England. Marc is Adjunct Professor of Music at Boston University College of Fine Arts.

TONY CORTESE

Leonardo da Vinci to Higher Education: Lead us on a Healthy, Just and Sustainable Path Now

ANTHONY D. CORTESE, SCD is a Senior Fellow of Second Nature, the Boston-based advocacy organization committed to promoting sustainability through higher education. He was its co-founder along with U.S. Senator John Kerry (D-MA), Teresa Heinz Kerry and Bruce Droste. He served as president from March 1993-August 2012.

He was the organizer of the American College & University Presidents Climate Commitment and co-founder of the Association for the Advancement of Sustainability in Higher Education and the Higher Education Association Sustainability Consortium.

Dr. Cortese was formerly the Commissioner of the Massachusetts Department of Environmental Protection. He was the first Dean of Environmental Programs at Tufts University and founded the award-winning Tufts Environmental Literacy Institute in 1989 that helped integrate environmental and sustainability perspectives in over 175 courses. He also organized the effort that resulted in the internationally acclaimed Talloires Declaration of University Leaders for a Sustainable Future in 1990 now signed by over 350 presidents and chancellors in over 50 countries.

Dr. Cortese is a trustee of Tufts University and Green Mountain College and a Fellow of the American Association for the Advancement of Science. He has been actively engaged in dealing with large system sustainability challenges for 40 years.

MONTY HEMPEL

*Sustainability: Changing the Operating System
Documentary World Premier*

MONTY HEMPEL is a documentary filmmaker and environmental scientist. He is currently the Hedco Professor of Environmental Studies and Director of the Center for Environmental Studies at the University of Redlands, in Southern California. He is also president of Blue Planet United, a small educational organization that produces environmental films and publishes a quarterly news journal about human population, consumption, and sustainability www.blueplanetunited.org.

Hempel's teaching, research, film, and public service interests focus on environmental science and politics, sustainability concepts, climate disruption, marine environmental protection, and wilderness preservation. His professional work is strongly interdisciplinary and guided by the goal of pragmatic idealism.

He is a past president of the Association for Environmental Studies and Sciences (AEES) and was a founding board member of the Association for the Advancement of Sustainability in Higher Education (AASHE). In addition, he has served on the executive committee of the national Council of Environmental Deans and Directors (CEDD), and currently serves as a Senior Fellow of the InterEnvironment Institute and California Institute of Public Affairs, and as an appointed member of the Southern California Association of Governments (SCAG) Benchmark Task Force.

MAHESH PRADHAN

*GUPES: The Global Universities Partnership on Environment
for Sustainability*

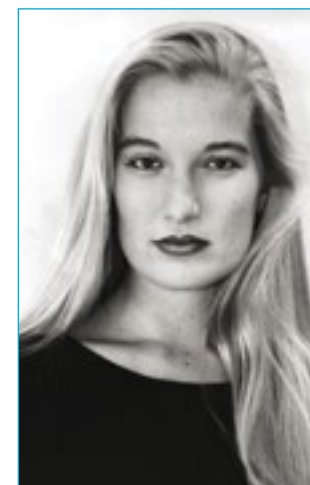

MR. MAHESH PRADHAN, was appointed as Chief of UNEP's Environmental Education and Training Unit (EETU) within the Division of Environmental Policy Implementation (DEPI).

EETU assists with the implementation of UNEP's mission: To provide leadership and encourage partnership in caring for the environment by inspiring, informing, and enabling nations and peoples to improve their quality of life without compromising that of future generations.

The core focus at EETU is UNEP's enhanced engagement with Universities. This is clustered around three key pillars of education, training and networking. Drawing upon the successful Mainstreaming Environment and Sustainability into African Universities (MESA) initiative, EETU has initiated a Global Universities Partnership on Environment and Sustainability (GUPES), which was launched as a lead up to the Rio+20 Conference and the Higher Education Sustainability Initiative (HESI). EETU seeks to promote enhanced student engagement on priority and emerging sustainability issues, with focus on students at undergraduate and graduate levels.

JORDANA DEZEEUW SPENCER

*Partnering Social Justice with Sustainability: A Challenge to Expand
Our Understanding of Inclusivity*

JORDANA DEZEEUW SPENCER, PH.D. has taught in both public and private schools, nationally and internationally, ranging from Massachusetts to California and South Africa to Greece. In addition to her classroom experience, Jordana has facilitated eight seasons of programs with Interlocken: Center for Experiential Learning (through which she has worked with students across Western Europe, Northern Africa, and the Hawaiian Islands). Jordana's scholarship draws upon Critical Social Theory & Pedagogy, Feminist Theory & Pedagogy, an Ethic of Care, Dialogism & Communication Theory, and Intersectionality Theory to explore what capacities the human animal needs to nurture in order to connect in solidarity across "difference" (whatever we may perceive that to be).

Jordana's passions lie in Social Justice Education with particular foci on Gender & Sexuality, as well as Anti-Racism Studies and solution-oriented critiques of culturally constructed oppressive systems. Jordana complements her Graduate Faculty responsibilities at Prescott College with teaching in their undergraduate program and advising in their Sustainability Education doctoral program, while continuing her international work during the summer.

MSI PANEL

title?

ARTHUR E. FRAZIER III, AIA, Director of Facilities Management & Services, Spelman College
Arthur E. Frazier III, AIA is a licensed architect and the director of Facilities Management & Services at Spelman College. Under Art's leadership the facilities department at Spelman has been nationally recognized as a leader in sustainability among historically Black colleges and received the President's 2008 Award for Excellence in Customer Service. Art is co-chair of Sustainable Spelman and also serves first vice-president of GAPPA, as chairman of the board of directors of the University Community Development Corp. and is on the board of advisors of Sustainable Atlanta.

SARAH E. JOHNSON is the coordinator of the Institute for Sustainability at California State University, Northridge. She holds a bachelor's degree in Psychology from California State University, Long Beach and a master's degree in Counseling with a specialization in College Counseling and Student Services from California State University, Northridge. She collaborates with faculty, administrators, and staff on campus sustainability projects and supervises student work on projects. She is passionate about integrating sustainability into all areas of higher education.

CASSIDY CANNON is the Sustainability Director at Elizabeth City State University. With this position she has the responsibility of building comprehensive plans, initiatives and programs for faculty, staff, and students that implement behavioral change and protect University resources. Prior to being hired, she received her degree at Elizabeth City State University in Business Administration with a concentration in marketing. While in school she founded the Community Relations Committee, an organization dedicated to community outreach through service and sustainability. Ms. Cannon expanded her environmentalism work by partnering with Green For All as a college ambassador and the United Negro College Fund-Building Green. Cassidy believes that all HBCU's and MSI's have a vested interest in the sustainability world as it is the newest portal for university opportunity and student income.

VERNA FOWLER, of Menominee and Stockbridge-Munsee heritage, is an enrolled member of the Menominee Indian Tribe of Wisconsin. Dr. Fowler has taught at the elementary, secondary, and college levels and has administered schools at the elementary and college level since 1968. Dr. Fowler is the founding President of the College of Menominee Nation. She has served as the chief officer of the College since its founding in 1993. The reservation-based community college has campuses in Keshena and Green Bay, Wisconsin. Dr. Fowler is a past President of the American Indian College Fund Board (AICF), and served as Vice-President of the American Indian Higher Education Consortium (AIHEC). She was appointed by President Bill Clinton to the White House Initiative on Tribal Colleges and Universities and re-appointed to serve by President George Bush in November 2006.

PANEL MODERATOR FELICIA M. DAVIS, directs the UNCF Institute for Capacity Building Facilities and Infrastructure Enhancement Program where she oversees implementation of the Kresge Foundation funded Building Green Initiative for Minority Serving Institutions. Davis works to green Black, Hispanic-serving, and Tribal colleges and universities with a goal of reducing institutional carbon footprints and moving aggressively toward carbon neutral campuses. An author of the critical Air of Injustice Report, she brought together the Georgia Coalition for the Peoples' Agenda, Black Leadership Forum, Clean Air Task Force and the Clear the Air Campaign in an historic collaboration.

GREENING *of the* CONFERENCE

- Working with NextEra as a dedicated Carbon Offset Sponsor to create a partnership focusing on mitigating emissions created from attendee and vendor travel and event center usage.
- Working with the LACC to ensure waste diversion through onsite composting and single stream recycling efforts.
- Partnering with local hotels who offer sustainability highlights including onsite recycling and rewards programs for those who chose to skip laundering services.
- Attendees have been active in pledging to bring their own coffee mug, water container, pens and paper, and re-sourced event lanyard so as not to create event related material waste.
- Utilizing EPEAT Gold Standard computers in all concurrent and general sessions.
- Offering FloWater stations throughout the conference and eliminating the use of plastic/disposable bottled water.
- Controlling room temperatures and energy output from light sources in conjunction with the Convention Center and AV company partnerships.
- Partnering with Stetson, a General Service Contractor for the Exhibit Hall, whose business plan focuses on sustainability measures from supply chains to onsite material usage.
- From energy usage reductions, water conservation, waste reduction (compostable paper products, recycling, food donation), green certified cleaning products, local foods, free trade coffee, water stations vs. water bottles, and bulk condiments; these are just a few of the ways AASHE continues to fulfill the mission of your organization.

CREATING SUSTAINABILITY *through* ART

In September 2010, thirty-three academic leaders from 33 independent colleges of Art and Design came together to create a new vision for design education that responds to the complex nature of our world. Each PALS "Fellow" has been appointed by the president of their institution to participate in a collaborative effort to link the resources of independent art and design colleges around the critical environmental, social and human centered design issues that face us.

Together we are responding to the question, "How do we ensure that our students are prepared to create a healthy, just and sustainable future?" The PALS-AASHE exhibition "Creating Sustainability" represents the work of student artists and designers from 12 of the PALS member schools. The projects are based around five key themes; water, energy, materials, social equity and health.

A Major Voice in the Sustainability Community

Key Benefits

- » Provides the information and resources to foster collaboration among those who have the mandate to advance the preservation and sustainability of global resources
- » Presents profiles of leaders in the field and effective academic and corporate sustainability programs that can be replicated
- » Offers detailed coverage of sustainability issues, in-depth analysis of new approaches and partnerships, and professional tools

The Experts Say

“Sustainability reflects the need for an unprecedented and urgent transformation of our behavior and our economy to protect future generations from environmental and social catastrophes. **Sustainability: The Journal of Record** promises to offer the range of perspectives needed to show leaders in all fields how we must work together to create these kinds of changes.”

—Jonathan Fink

11:00-12:00 *Beyond Efficiency to Embedded Sustainability*

Presenters: Brian Schultes, Clarke University
Focus: Assessments and Inventories, Coordination and Planning, Partnerships

ROOM 501 C

STRAND: FACILITIES AND OPERATIONS

11:00-11:30 *Determining the GHG Emissions from Composting at The University of Arizona*

Presenters: Emily Toffol, The University of Arizona; Joe Abraham, The University of Arizona
Focus: Climate Mitigation, Research, Waste & Materials Management

11:30-12:00 *Case Study of Greenhouse Gas Reporting Requirements for Higher Education Institutions*

Presenter: Camille Kirk, University of California, Davis
Focus: Assessments and Inventories, Climate Mitigation, Community Engagement & Public Outreach

ROOM 502 A

STRAND: ENGAGING STUDENTS

11:00-11:20 *Building Automation and Student Engagement*
Presenter: Laura Susan Worthington, Eastern Connecticut State University

Focus: Academic Programs and Courses, Campus as a Living Lab, Energy

11:20-11:40 *Student-Led Weatherizations at Harvard: Delivering Exponential Impact from Small Energy Retrofits*

Presenters: Brandon Phillip Geller, Harvard University
Focus: Campus as a Living Lab, Community Engagement & Public Outreach, Energy

11:40-12:00 *This Sucks! Addressing Vampire Energy on College and University Campuses*

Presenters: Trey McDonald, University of North Carolina at Greensboro
Focus: Co-curricular Activities, Energy, Student Activism

ROOM 502 B

STRAND: FACILITIES AND OPERATIONS WORKSHOP

11:00-12:00 *Strategies and Collective Opportunities for Procuring Renewable Electricity for Higher Education Institutions*

Presenters: Anthony Amato, ERG on behalf of U.S. EPA; Blaine Collison, U.S. EPA

Focus: Climate Mitigation, Energy, Procurement

ROOM 503

STRAND: ACADEMICS

11:00-12:00 *Helping Others Understand Sustainability: Tools for Curriculum Development and Instructional Design*

Presenters: Sherie McClam, Manhattanville College; Lori Diefenbacher, Webster University

Focus: Academic Programs and Courses

ROOM 504

STRAND: FACILITIES AND OPERATIONS PANEL

11:00-12:00 *The Role of Food Service Workers in Campus Sustainability Programs*

Presenters: Kyle Schafer, UNITE HERE; Robert Gottlieb, Occidental College

Focus: Diversity and Inclusion, Food, Social Justice

ROOM 505

STRAND: FACILITIES AND OPERATIONS

11:00-11:20 *Food Fight: EPA's Food Recovery Challenge Strives to Reduce Food Waste*

Presenters: Laura Moreno, U.S. EPA; Saskia van Gendt, U.S. EPA

Focus: Food, Partnerships, Waste & Materials Management

11:20-11:40 *Give Us Your Scraps! How You Can Make a Significant Sustainable Impact Through Campus Composting*

Presenter: Jim Simon, State University of New York at Buffalo

Focus: Community Engagement & Public Outreach, Food, Partnerships

11:40-12:00 *Scaling up Campus Vermicomposting: A Cost Effective Methodology for Dealing with Pre-Consumer Organics*

Presenters: Justin Ritchie, University of British Columbia; Emme Lee, University of British Columbia

Focus: Campus as a Living Lab, Food, Waste & Materials Management

ROOM 506

STRAND: ACADEMICS

11:00-11:30 *First-Year Students as Agents of Campus Change*

Presenters: Brian E Hagenbuch, Hartwick College; Dan Morse, Hartwick College

Focus: Academic Programs and Courses, Campus as a Living Lab, Service Learning

11:30-12:00 *Weaving Green Threads: Sustainability Students as Connectors and Creators*

Presenter: Jess Gerrior, Franklin Pierce University

Focus: Academic Programs and Courses, Campus as a Living Lab, Co-curricular Activities

ROOM 507

11:00-11:30 *Connecting Visual Art/Design and Environmental Studies Courses to Develop Integrated Solutions to Sustainability-Focused Campus Projects: A Service-Learning Model*

Presenters: Adrienne Schwarte, Maryville College; Mark J O'Gorman, Maryville College

Focus: Academic Programs and Courses, Arts and Culture, Service Learning

11:30-12:00 *Collaborating Around Art + Architecture: Designing the Paradise Creek Nature Park*

Presenter: Phoebe Crisman, University of Virginia

Focus: Academic Programs and Courses, Arts and Culture,

Community Engagement & Public Outreach

ROOM 510

STRAND: ADMINISTRATION AND PLANNING

11:00-11:30 *Glória Campus of Federal University of Uberlândia: Planning a Sustainable Campus with Public Participation*

Presenter: Elisson Cesar Prieto, Universidade Federal de Uberlândia

Focus: Administration and Governance, Campus as a Living Lab, Coordination and Planning

11:30-12:00 *Adopting STARS as a Campus Sustainability Measuring System at a Japanese University: A Case of Hokkaido University*

Presenter: Maki Komatsu, Hokkaido University

Focus: Assessments and Inventories, Coordination and Planning, STARS

ROOM 511 A

STRAND: ENGAGING STUDENTS WORKSHOP

11:00-12:00 *Empowering Ecoliteracy: A Transformative Art & Design Education Bridging Academics, Operations, and Facilities*

Presenters: Mark Bechtel, New School University; Zane Murray, New School University

Focus: Academic Programs and Courses, Co-curricular Activities, Waste & Materials Management

ROOM 511 B

STRAND: ADMINISTRATION AND PLANNING PANEL

11:00-12:00 *Planning for the Future: Creating and Achieving Campus Sustainability Goals*

Moderator: Elida Erickson, University of California, Santa Cruz

Presenters: Emily Cumbie-Drake, Emory University; Aurora Winslade, University of Hawaii West O'ahu; Aparna Dial, The Ohio State University; Matt St. Clair, University of California Office of the President

Focus: Assessments and Inventories, Coordination and Planning, Partnerships

ROOM 511 C

STRAND: CHANGE MANAGEMENT WORKSHOP

11:00-12:00 *Ecosystems Planning: A Systems Approach to Sustainability Strategy*

Presenters: Meghan Chapple-Brown, The George Washington University; Sophie Waskow, The George Washington University

Focus: Administration and Governance, Community Engagement & Public Outreach, Coordination and Planning

ROOM 512

STRAND: ENGAGING STUDENTS PANEL

11:00-12:00 *Sustainability & Social Justice: How College Students Engage with Subjugated Populations in the Community*

Presenters: Liz Wigger, Northern Arizona University; Erin O'Keefe, Northern Arizona University; Bianca Buliga, Northern Arizona University; Stormy Scott, Northern Arizona University

Focus: Community Engagement & Public Outreach, Social Justice, Student Activism

ROOM 513

STRAND: COLLABORATION AND PARTNERSHIPS PANEL

11:00-12:00 *Fostering Campus and Community Partnerships for Sustainability*

Moderator: Lisa Madry, National Wildlife Federation

Presenter: Eriqah Ré Foreman-Williams, National Wildlife Federation

Focus: Community Engagement & Public Outreach, Partnerships, Service Learning

ROOM 514

STRAND: CHANGE MANAGEMENT

11:00-11:20 *Adaptive Change Management for Sustainability at Loyola University Chicago*

Presenter: Aaron Durnbaugh, Loyola University Chicago

Focus: Assessments and Inventories, Community Engagement & Public Outreach, Coordination and Planning

11:20-11:40 *The Office Certification Program: Transforming the Workplace*

Presenters: Nicole Cocco, University of North Texas; Emily Hudson, University of North Texas

Focus: Assessments and Inventories, Campus as a Living Lab, Community Engagement & Public Outreach

ROOM 515 A

STRAND: ENGAGING STUDENTS PANEL

11:00-12:00 *A Case Study of Multi-Campus, Interdisciplinary Energy Education to Empower Student Engagement*

Presenter: Shanah Trevenna, University of Hawaii Community College

Focus: Academic Programs and Courses, Affordability and Access, Energy

ROOM 516 - GreenerU Renewal Room

STRAND: CHANGE MANAGEMENT WORKSHOP

11:00-12:00 *Meditation for Green Practitioners*

Presenter: Kate Yoshida, University of Illinois at Chicago

Focus: Co-curricular Activities, Health and Wellness

ROOM 518

STRAND: ENGAGING STUDENTS

11:00-11:20 *Building More Sustainable Communities Through Agriculture Integration*

Presenter: Meiko Esther Lunetta, Green Mountain College

Focus: Arts and Culture, Community Engagement & Public Outreach, Food

11:20-11:40 *Achieving Energy Reductions Through Behavior: Competition Best Practices and Case Study*

Presenter: Julian Goresko, University of Pennsylvania

Focus: Buildings, Community Engagement & Public Outreach, Energy

11:40-12:00 *Lost in Translation: The Transfer of Climate Change Knowledge into Sustainable Behavior Among Students at the University of Auckland*

Presenter: Claire Michelle Patterson, Monash University

Focus: Community Engagement & Public Outreach, Research, Student Activism

LUNCH MEETINGS

12:15-1:15 PM

ROOM 501 C

STRAND: ACADEMICS

11:30-12:00 *Campus Carbon Inventories*

Session Organizers: Jennifer Andrews, Clean Air-Cool Planet; Jeff Murphy, Sightlines; Jay Pearlman, Sightlines

ROOM 503

Challenges to Greening Your Campus Facilities Discussion

Session Organizer: Kristin Ferguson, U.S. Green Building Council

ROOM 511 C

International Luncheon

Session Organizer: Paul Rowland, AASHE

ROOM 515 A

Networking Meet-up Lunch for Sustainability Professionals in Higher Education

Session Organizers: Jeremy Friedman, New York University; Aurora Winslade, University of Hawaii West O'ahu

ROOM 515 B

3rd Annual Community College Meet-Up: The Green Genome Project

Session Organizers: Todd Cohen, American Association of Community Colleges; Debra Rowe, U.S. Partnership for Education for Sustainable Development

ROOM 518

Higher Education and Student Affairs Networking Luncheon

Session Organizers: M Shernell Smith, Carnegie Mellon University; Vernon Wall, ACPA; Pamela Su, Sonoma State University

Presenters: Thomas Gerald Kirch, Oregon State University; Annie Laurie Cadmus, Ohio University

**ADVANCED TRACK:
SUSTAINABILITY UNBOUND**

1:30-4:00 PM

ROOM 408 A

STRAND: ADVANCED TRACK, CLOSED TO PRE-REGISTERED ATTENDEES ONLY

1:30-4:00 *Sustainability Unbound*

Presenters: Tom Kelly, University of New Hampshire; Cynthia Thomashow, AASHE

SESSION G

1:30-2:30 PM

ROOM 411

STRAND: FILM/DOCUMENTARY

1:30-2:00 *Growing Awareness: Moving Maine, Moving Planet*

Session Organizer: Jesse Pyles, Unity College

Focus: Community Engagement & Public Outreach, Food, Student Activism

ROOM 501 A

STRAND: ACADEMICS

1:30-1:50 *A Case Study on a Residential Energy Efficiency Service Learning Education Program*

Presenter: David Riley, Penn State Center for Sustainability

Focus: Academic Programs and Courses, Community Engagement & Public Outreach, Energy

1:50-2:10 *Living and Learning Communities: Developing Sustainability Leaders through Residential Programming*

Presenter: Kathleen Grady, Temple University

Focus: Co-curricular Activities, Partnerships, Student Activism

2:10-2:30 *Immersed in the Environment: A Concentrated Weekend Course*

Presenter: Erika Ninos, Carnegie Mellon

Focus: Academic Programs and Courses, Diversity and Inclusion

ROOM 501 B

STRAND: ACADEMICS

1:30-2:30 *Sustainability Education Combines with Place-based Education in UVM Graduate-level Team-taught Service-learning Integrative Course*

Presenters: Thomas R. Hudspeth, University of Vermont; Walter Poleman, University of Vermont

Focus: Academic Programs and Courses, Community Engagement & Public Outreach, Service Learning

ROOM 501 C

STRAND: FACILITIES AND OPERATIONS

1:30-2:00 *Catering Services Sustainable Standards*

Presenter: Elodie Rochel, Campus Responsables

Focus: Food, Health and Wellness

2:00-2:30 *Researching Two On-site Food Waste Reduction Technologies at an Urban University*

Presenter: Joseph Rasmussen, Loyola Marymount University

Focus: Food, Technology, Waste & Materials Management

ROOM 502 A

STRAND: ACADEMICS

1:30-2:30 *Getting to the Point: Teaching STEM Content through Societal Challenges*

Presenters: Debra Rowe, U.S. Partnership for Education for Sustainable Development; Catherine Fry, Association of American Colleges & Universities; Kelly Mack, Association of American Colleges & Universities

Focus: Academic Programs and Courses, Partnerships

ROOM 502 B

STRAND: ENGAGING STUDENTS

1:30-2:00 *CSI: Greensboro - Engaging Arts Students in the Sustainability Conversation*

Presenters: Trey McDonald, The University of North Carolina at Greensboro

Focus: Arts and Culture, Co-curricular Activities, Community Engagement & Public Outreach

2:00-2:30 *Egyptian Sustainable Urbanism (ESU): An Experimental Study of the Academic Role towards Glocal Challenges*

Presenters: Sherif Ahmed Sheta, Mansoura University; Mina Michel Samaan, Mansoura University

Focus: Campus as a Living Lab, Community Engagement & Public Outreach, Student Activism

ROOM 503

STRAND: FACILITIES AND OPERATIONS WORKSHOP

1:30-2:30 *Bleeding Beyond the Campus Boundaries: How Colleges and Universities are Collaborating with their Local Communities to Realize Restorative Cities Now*

Moderator: Kristin Ferguson, U.S. Green Building Council
Presenters: Robert Lamppa, Oberlin College; Fletcher Davies Beaudoin, Portland State University; Ciannat Howett, Emory University

Focus: Buildings, Campus as a Living Lab, Community Engagement & Public Outreach

ROOM 504

STRAND: FACILITIES AND OPERATIONS PANEL

1:30-2:30 *Measuring and Reducing the Carbon Footprint of Campus Dining Using the CHEFS Tool*

Moderator: Jennifer Andrews, Clean Air-Cool Planet
Presenters: Katrina Shum, ARAMARK Higher Education, Arizona State University; Linda Petee, Delta College; Eden Wetherell, ARAMARK Higher Education, University of Central Florida; Timothy Ryder, Clean Air-Cool Planet

Focus: Assessments and Inventories, Climate Mitigation, Food

ROOM 505

STRAND: ACADEMICS

1:30-2:00 *Inspiring Undergraduate Excellence with Direct and Meaningful Engagement*

Presenter: Edward Whitesell, The Evergreen State College

Focus: Academic Programs and Courses, Community Engagement & Public Outreach, Social Justice

2:00-2:30 *Synergy in a Faculty Learning Community: Sustainability & Pedagogy at Cal State East Bay*

Presenters: Michael Lee, Cal State East Bay; Enrique Salmon, Cal State East Bay

Focus: Academic Programs and Courses, Co-curricular Activities, Diversity and Inclusion

ROOM 506

STRAND: ACADEMICS

1:30-2:00 *Academic Libraries and Sustainable Scholarly Content*

Presenters: Marianne A. Buehler, University of Nevada, Las Vegas; Maria A. Jankowska, University of California Los Angeles
Focus: Community Engagement & Public Outreach, Research, Social Justice

2:00-2:30 *Stepping Into the Problem: Using 3D Games Technology to Simulate Problem Solving In Sustainable Design*

Presenters: Colin Hocking, Victoria University; Graham Thorpe, Victoria University

Focus: Academic Programs and Courses, Climate Mitigation, Energy

ROOM 507

STRAND: FACILITIES AND OPERATIONS

1:30-1:50 *Promoting Sustainability Programs with Technology: A Self-guided Sustainability Tour for the Digital Age*

Presenters: Halli Elizabeth Bovia, University of Southern California; Justin Bogda, University of Southern California
Focus: Campus as a Living Lab, Community Engagement & Public Outreach, Technology

1:50-2:10 *Getting the Word Out*

Presenter: Kevin Davis Ordean, Northern Arizona University
Focus: Campus as a Living Lab, Community Engagement & Public Outreach, Partnerships

ROOM 510

STRAND: ADMINISTRATION AND PLANNING

Presenter: Howard Ways, University of the District of Columbia
Focus: Administration and Governance, Community Engagement & Public Outreach, Coordination and Planning

ROOM 513

STRAND: COLLABORATION AND PARTNERSHIPS

1:30-2:00 *Campus Farmers' Market: An Innovative Partnership Approach to Building Consensus and Gaining Approval*

Presenters: Michael Gulich, Purdue University; Erin Nelson, Greater Lafayette Commerce
Focus: Community Engagement & Public Outreach, Food, Partnerships

2:00-2:30 *Harvesting Mesquite Flour at the University of Arizona: A Case Study in Local Innovative Food Production*

Presenters: Elondra Ome Eichenberger, The University of Arizona; Joe Abraham, The University of Arizona
Focus: Campus as a Living Lab, Food, Grounds and Landscaping

ROOM 514

STRAND: CHANGE MANAGEMENT

1:30-2:00 *The Inside View on Factors that Affect Progress Towards Sustainability in Higher Education*

Presenter: G. Sherman H. Morrison, Antioch University
Focus: Administration and Governance, Coordination and Planning, Research

2:00-2:30 *Be Socially Sustainable: Bringing the Social into Sustainability Planning & Outreach*

Presenter: Ben Kalscheur, Texas A&M University

Focus: Community Engagement & Public Outreach, Coordination and Planning, Diversity and Inclusion

ROOM 515 A

STRAND: COLLABORATION AND PARTNERSHIPS WORKSHOP

1:30-2:30 *Our Campus as a Living Lab Program: Moving towards a Utopian Sustainable Food System*

Presenter: Liska Richer, University of British Columbia, Vancouver, BC, Canada (Campus Sustainability)

Focus: Campus as a Living Lab, Food, Waste & Materials Management

ROOM 515 B

STRAND: ENGAGING STUDENTS PANEL

1:30-2:30 *Green Funds at Community Colleges: Unique Approaches to Engaging Students*

Presenters: Liam Morrison, College of Lake County; Kim Criner, Johnson County Community College; Ali O'Brien, College of Lake County; Kevin Clark, Johnson County Community College

Focus: Affordability and Access, Co-curricular Activities, Diversity and Inclusion

ROOM 518

STRAND: COLLABORATION AND PARTNERSHIPS WORKSHOP

1:30-2:30 *The CCC/IOU Energy Efficiency Partnership*

Presenters: Fred Harris, California Community Colleges; Cid Pinedo, Chaffey College; Gary Nellesen, Mt. San Antonio College; Lisa Hannaman, Southern California Edison

Focus: Energy, Finance, Investment and Economics, Partnerships

SESSION H

2:50-3:50 PM

ROOM 501 A

STRAND: FACILITIES AND OPERATIONS

2:50-3:20 *Green Light at the Jacobs University Bremen. Shift to LED. Savings up to 70%*

Presenter: Carl Claudius Johannes Hardt, Jacobs University Bremen

Focus: Buildings, Energy, Technology

3:20-3:50 *Accelerating Campus Sustainability in Kyoto University*

Presenter: Takayuki Nakamura, Kyoto University

Focus: Buildings, Energy, Technology

ROOM 501 B

STRAND: FACILITIES AND OPERATIONS

2:50-3:20 *Designing and Operating a Certified "Living Building": Meeting Certification and Maintaining Net-Zero Energy*

Presenters: Kevin G. Smith, Washington University in St. Louis; Daniel F. Hellmuth, Hellmuth + Bicknese Architects

Focus: Buildings, Campus as a Living Lab, Energy

3:20-3:50 *Demonstrating Affordable Net-Zero Energy on Campus*

Presenter: William Marshall Brown, Indiana University

Focus: Buildings, Energy, Technology

ROOM 501 C

STRAND: ACADEMICS

2:50-3:20 *Sustainability Education and Student Learning at the University of British Columbia*

Presenters: Kshamta Bhupendra Hunter, University of British Columbia

Focus: Academic Programs and Courses, Co-curricular Activities, Community Engagement & Public Outreach

ROOM 502 A

STRAND: ENGAGING STUDENTS

2:50-3:20 *Low Income Weatherization: At the Intersection of Environmental Engagement and Community Service*

Presenters: Sarah Rowe, Williams College; Todd Holland, Williams College

Focus: Community Engagement & Public Outreach, Energy, Social Justice

3:20-3:50 *The Eco-Reps' Sister Organization: Including Social Justice Peer Educators on Your Campus*

Presenter: Jill A Ramirez, The University of Arizona

Focus: Co-curricular Activities, Diversity and Inclusion, Social Justice

ROOM 502 B

STRAND: FACILITIES AND OPERATIONS

2:50-3:20 *Visualizing the Sustainable Campus: A Design-Thinking Approach to Campus Planning*

Presenter: Elizabeth Turner, University of Minnesota

Focus: Assessments and Inventories, Community Engagement & Public Outreach, STARS

3:20-3:50 *Building a World-Class Bicycle Commuter Program in an Age of Austerity*

Presenters: Steve Sanders, University of Minnesota; Rolf Scholtz, Dero

Focus: Health and Wellness, Transportation, Technology

ROOM 503

STRAND: ACADEMICS

2:50-3:50 *Nurturing Sustainability Leaders: Pedagogical Practices and Guiding Stories*

Presenters: Heather Burns, Portland State University; Sybil Kelley, Portland State University; Dilafruz Williams, Portland State University

Focus: Academic Programs and Courses, Diversity and Inclusion, Service Learning

ROOM 504

STRAND: ACADEMICS

2:50-3:20 *A Capacity Building Program for Sustainability: Collaborative Planning in Mexico*

Presenters: Luis Bojórquez-Tapia, National Autonomous University of Mexico; Lakshmi Charli-Joseph, National Autonomous University of Mexico

Non-Presenting Authors: Ana E. Escalante, National Autonomous University of Mexico; María José Solares, National Autonomous University of Mexico

Focus: Academic Programs and Courses, Administration and Governance, Coordination and Planning

3:20-3:50 *Developing an Integrated MBA and MPA Curriculum to Spur Innovative and Collaborative Solutions for Sustainability*

Presenters: Maggie Winslow, Presidio Graduate School; Ryan Cabinte, Presidio Graduate School

Non-Presenting Author: Dwight Collins, Presidio Graduate School

Focus: Academic Programs and Courses, Partnerships

ROOM 505

STRAND: FACILITIES AND OPERATIONS

2:50-3:10 *Turn Your Dorm into a 'Super Dorm'!*

Presenters: Dianne Anderson, New York University; Emily Genser, New York University

Focus: Energy, Waste & Materials Management, Water

3:10-3:30 *Designing for the Future: Building a Passive House Residence Hall at Emory & Henry College*

Presenter: Jesse Freedman, Emory & Henry College

Focus: Buildings, Energy

3:30-3:50 *LEED for Existing Buildings: A Tool for Structuring Campus Sustainability Initiatives*

Presenters: Jordan Sager, University of California, Santa Barbara; Perrin Pellegrin, Innovative Workshop Consulting

Focus: Energy, Waste & Materials Management, Water

ROOM 506

STRAND: FACILITIES AND OPERATIONS

2:50-3:10 *Green Infrastructure at the University of Louisville*

Presenter: Russell Barnett, University of Louisville

Focus: Campus as a Living Lab, Grounds and Landscaping, Water

3:10-3:30 *Water, Waste and Landscaping: How Old Dominion University Facilities Management Manages and Practices Sustainability*

Presenter: Patricia Madeleine King, Old Dominion University

Focus: Grounds and Landscaping, Waste & Materials Management, Water

3:30-3:50 *Seeing the Campus Through the Trees: Transforming Campus Sustainability Through the Tree Campus USA Program*

Presenter: Jeremy King, Denison University

Focus: Campus as a Living Lab, Community Engagement & Public Outreach, Grounds and Landscaping

ROOM 507

STRAND: ACADEMICS

2:50-3:20 *Fostering University-Wide Sustainable Behaviors through Service Learning: A Classroom Transition From Theory To Real World Application*

Presenter: Roslynn Brain, Utah State University

Focus: Academic Programs and Courses, Community Engagement & Public Outreach, Service Learning

ROOM 510

STRAND: ADMINISTRATION AND PLANNING

2:50-3:20 *Aligning Sustainability Education with the Grain of the Institution: Victoria University In Australia As A Case Study*

Presenters: Colin Hocking, Victoria University; Angela Daddow, Victoria University

Focus: Academic Programs and Courses, Administration and Governance, Coordination and Planning

ROOM 511 A

STRAND: ENGAGING STUDENTS WORKSHOP

2:50-3:50 *Fostering Sustainable Behaviour through Energy and Water Reduction Competitions: Best Practices from Campus Conservation Nationals 2012*

Presenters: Andrew deCoriolis, Lucid; Elaine Durr, Elon University; Nicholas Hennessy, Bowling Green State University; Julie Cahillane, Northwestern University

Focus: Campus as a Living Lab, Energy, Student Activism

ROOM 511 B

STRAND: ADMINISTRATION AND PLANNING PANEL

2:50-3:50 *Green Funds 1.0: Getting a Fund Started*

Moderator: Katherine Walsh, University of California Berkeley

Presenters: Jennifer Elizabeth Jones, College of Charleston; Ali O'Brien, College of Lake County; Christine Cooley, Pacific Lutheran University

Focus: Administration and Governance, Finance, Investment and Economics

ROOM 511 C

STRAND: CHANGE MANAGEMENT PANEL

2:50-3:50 *Parkaholics Anonymous: A 12 Step Intervention*

Presenters: Suzanne Williams, The University of North Carolina at Greensboro; Trey McDonald, The University of North Carolina at Greensboro

Focus: Climate Mitigation, Coordination and Planning, Transportation

ROOM 512

ROOM 513

STRAND: ADMINISTRATION AND PLANNING

2:50-3:20 *Bridging the Digital Divide Through E-Waste Diversion and Electronic Resources Management*

Presenter: Jonathan Latko, Temple University

Focus: Affordability and Access, Technology, Waste & Materials Management

3:20-3:50 *Banning Bottled Water on the College Campus: Beyond Excuses*

Presenter: Christine Cooley, Pacific Lutheran University

Focus: Coordination and Planning, Social Justice, Water

ROOM 514

STRAND: COLLABORATION AND PARTNERSHIPS PANEL

2:50-3:50 *Equity, Well-Being, and the Environment: Building New Programmatic Bridges*

Moderator: Daniel Roth, Cornell University

Presenters: Kathleen Hatch, Washington State University; M Shernell Smith, Carnegie Mellon University; Alex Accetta, Portland State University

Focus: Diversity and Inclusion, Health and Wellness, Partnerships

ROOM 515 A

STRAND: ENGAGING STUDENTS WORKSHOP

2:50-3:50 *USGBC Students: An Untapped Resource*

Presenters: Michelle Perez, University of California, San Diego; Cory Trusty, University of California, San Diego

Focus: Buildings, Careers and Workforce Development, Service Learning

ROOM 515 B

STRAND: ENGAGING STUDENTS WORKSHOP

2:50-3:50 *Students as Change-makers: Engagement and Innovation for Small, Underfunded, Public Institutions*

Presenters: Jonathan Coop, Western State Colorado; Brooke Moran, Western State Colorado; Kyle Brookens, Western State

Colorado

Focus: Academic Programs and Courses, Coordination and Planning, Student Activism

ROOM 518

STRAND: ENGAGING STUDENTS

2:50-3:10 *Changing the Campus Dynamic: The Student Creation and Administration of the Sustainability Initiatives Fund at Johnson County Community College*

Presenters: Kevin Clark, Johnson County Community College; Kaylen Peterson, Johnson County Community College

Focus: Finance, Investment and Economics, Partnerships, Student Activism

3:10-3:30 *Engaging Students in Sustainable Food Procurement: The Real Food Calculator at the University of Washington*

Presenter: Stephanie Robinson, University of Washington

Focus: Assessments and Inventories, Food, Partnerships

3:30-3:50 *Mindfulness in Energy Use: Course Participants Driving Conservation*

Presenters: Richard Slawsky, University of Louisville; Justin Mog, University of Louisville

Focus: Academic Programs and Courses, Energy, Student Activism

AWARDS AND CLOSING CEREMONY

4:00-4:45PM

CONCOURSE BALLROOM

NETWORKING MEET-UPS

4:45-6:00 PM

ROOM 501 A

Canadian College and University Meetup

Session Organizers: Kathleen Ng, McGill University; Joanne Perdue, University of Calgary

ROOM 511 A

Environmental Leadership Program Meetup

Session Organizers: Jesse Pyles, Unity College; Mieko A. Ozeki, University of Vermont; Jenna Ringelheim, Environmental Leadership Program

WORKSHOPS

8:00 AM-12:00 PM

ROOM 501 A

8:00-12:00 *Measuring Campus Sustainability Around the World*

Presenters: Paul Rowland, AASHE; Jean-Christophe Carteron, Euromed; Leanne Denby, Macquarie University; Jimmy Branigan, ESD Consulting; Iain Patton, EAUC; Eujun Senaha, Hokkaido University; Niko Roorda, Avans University

Focus: Assessments and Inventories, Research, STARS

ROOM 501 C

8:00-12:00 *Christian Perspectives and Approaches to Sustainability in Higher Ed*

Presenter: Chris Elisara, Center for Environmental Leadership

Focus: Community Engagement & Public Outreach, Diversity and Inclusion, Partnerships

ROOM 503

8:00-12:00 *Campus Carbon Calculator Transformed: A New Era in Campus Climate Action*

Presenters: Jennifer Andrews, Clean Air-Cool Planet; Jay Pearlman, Sightlines; Jeff Murphy, Sightlines

Focus: Assessments and Inventories, Climate Mitigation, Finance, Investment and Economics

ROOM 511 A

8:00-12:00 *"Community of Practice" for Co-curricular Sustainability Program Coordinators*

Presenters: Angela L Hamilton, Portland State University; Doug Cohen, The Leadership Center; April Murazzo, Portland State University

Focus: Academic Programs and Courses, Co-curricular Activities, Student Activism

ROOM 518

8:00-12:00 *Designing Introductory Courses in Sustainability for Undergraduate Learners*

Presenters: Robert J. Turner, University of Washington Bothell; Sonya Remington, Arizona State University; Ben Fackler-Adams, Skagit Valley College

Focus: Academic Programs and Courses, Campus as a Living Lab, Service Learning

CEREMONY HONORING STUDENTS AND CAMPUSES

STUDENT SUSTAINABILITY LEADERSHIP AWARD:

Maria Rosales
University of Tennessee, Knoxville

STUDENT RESEARCH ON CAMPUS SUSTAINABILITY AWARDS:

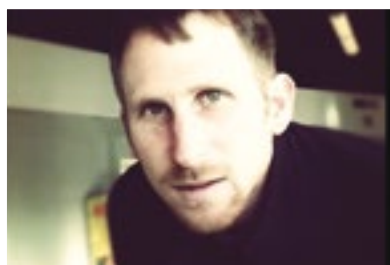

UNDERGRADUATE STUDENT

Kelley Doyle
University of California, Berkeley
For her paper, *Converting University Spending to Greenhouse Gas Emissions: A Supply Chain Carbon Footprint Analysis of UC Berkeley*

GRADUATE STUDENT

Rachelle Irby
Humboldt State College
For her paper, *"Student-Driven Energy Independence: A Case Study of Humboldt Energy Independence Fund"*

FACULTY SUSTAINABILITY LEADERSHIP AWARD:

Marc Schlossberg
University of Oregon

and

Nico Larco
University of Oregon

CAMPUS SUSTAINABILITY CASE STUDY AWARDS:

BEST CASE STUDY FROM A COMMUNITY, TECHNICAL OR TRIBAL COLLEGE WITH 5,000 OR FEWER FULL-TIME STUDENTS

Alfred State College
Net-Zero Energy Demonstration Home

BEST CASE STUDY FROM A COMMUNITY TECHNICAL OR TRIBAL COLLEGE WITH MORE THAN 5,000 FULL-TIME STUDENTS

Owens Community College
Harvest Project

BEST CASE STUDY FROM A FOUR-YEAR OR GRADUATE INSTITUTION WITH 10,000 OR FEWER FULL-TIME STUDENTS

Skidmore College
Innovative District Geothermal System

BEST CASE STUDY FROM A FOUR-YEAR OR GRADUATE INSTITUTION WITH MORE THAN 10,000 FULL-TIME STUDENTS

University of British Columbia
Implementing UBC's Climate Action Plan

INNOVATION IN GREEN BUILDING (to be presented at USGBC Greenbuild 2012 Conference)

2012 ACKNOWLEDGEMENTS

THANK YOU ABSTRACT REVIEWERS!

Over 600 abstracts were received for AASHE 2012, and almost 170 individuals volunteered their time, energy and expertise to review these submissions. Without their help, this conference would not be possible! Thank you to all of our reviewers for helping to create the AASHE conference program!
